

Low-Code/No-Code Enablement and Governance

La Fosse Capability

Enabling rapid digital delivery with the right controls in place

La Fosse helps organisations adopt low-code and no-code platforms safely and at scale. We establish Centres of Excellence, define governance and guardrails, and enable teams with reusable components and standards. Our approach accelerates delivery while ensuring solutions are secure, compliant, maintainable and aligned to organisational and government requirements.

Platform enablement

Secure configuration of low-code platforms for organisational use

Governance and guardrails

Standards, controls and approval processes to manage risk

Reusable components

Templates and patterns to accelerate consistent delivery

Capability and uplift

Training and enablement for business and digital teams

- **Low-code platform configuration and setup**
- **Centre of Excellence design and operation**
- **Governance, standards and risk controls**
- **Training and delivery enablement**

1

Assess and scope

Identify use cases, platforms, risks and organisational readiness

2

Design governance and CoE

Define standards, guardrails, operating model and support processes

3

Enable and deliver

Configure platforms, develop components and support application delivery

4

Embed and scale

Train teams, refine governance and support sustainable adoption

Proven public sector impact

La Fosse enables low-code adoption by balancing delivery speed with strong governance. We help organisations empower teams to build digital solutions quickly while embedding controls that ensure security, compliance and long-term sustainability.

Governed digital
delivery enablement

Supported digital delivery through governance, design and operational controls across business-led solutions.
Outcome: Faster delivery, improved consistency and stronger governance.

Business-led digital
delivery support

Department
for Transport

Provided delivery and governance capability supporting scalable, business-owned digital solutions.
Outcome: Reduced delivery backlog, improved collaboration and controlled platform adoption.

Operational application
delivery enablement

Delivered enablement and governance support to accelerate delivery of operational digital applications.
Outcome: Faster time to value, improved maintainability and increased delivery confidence.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.

Thank you
