

Cloud Transformation and Enablement

La Fosse Capability

Enabling secure, cost-effective cloud adoption at scale

La Fosse supports public sector organisations to adopt cloud services safely and sustainably across discovery, migration and steady-state operations. We combine assessment, target architecture design, cost and risk analysis, and governance setup to enable confident cloud adoption. Our approach embeds FinOps, SecOps and automation from the outset, ensuring cloud platforms are secure, well-governed and manageable by in-house teams.

Cloud readiness and assessment

Baseline application, data and infrastructure readiness, cost drivers, security posture and migration constraints

Target architecture and governance

Design cloud landing zones, reference architectures, security controls and operating models

Controlled adoption and migration planning

Define migration approaches, proofs of concept and transition plans aligned to Cloud Adoption Frameworks

Enablement and optimisation

Embed FinOps, SecOps and automation, transferring capability to internal teams for ongoing operation

- **Accountable cloud transformation leadership**
- **Repeatable architecture and governance artefacts**
- **Governed cloud adoption and transition planning**
- **FinOps, SecOps and automation expertise**

1

Assess and baseline

Assess legacy and digital estate readiness, operating model constraints, dependencies and transformation risks

2

Design and plan change

Define target states, phased roadmaps, investment cases and governance models

3

Mobilise and deliver

Support controlled delivery of transformation initiatives, validating progress and minimising disruption

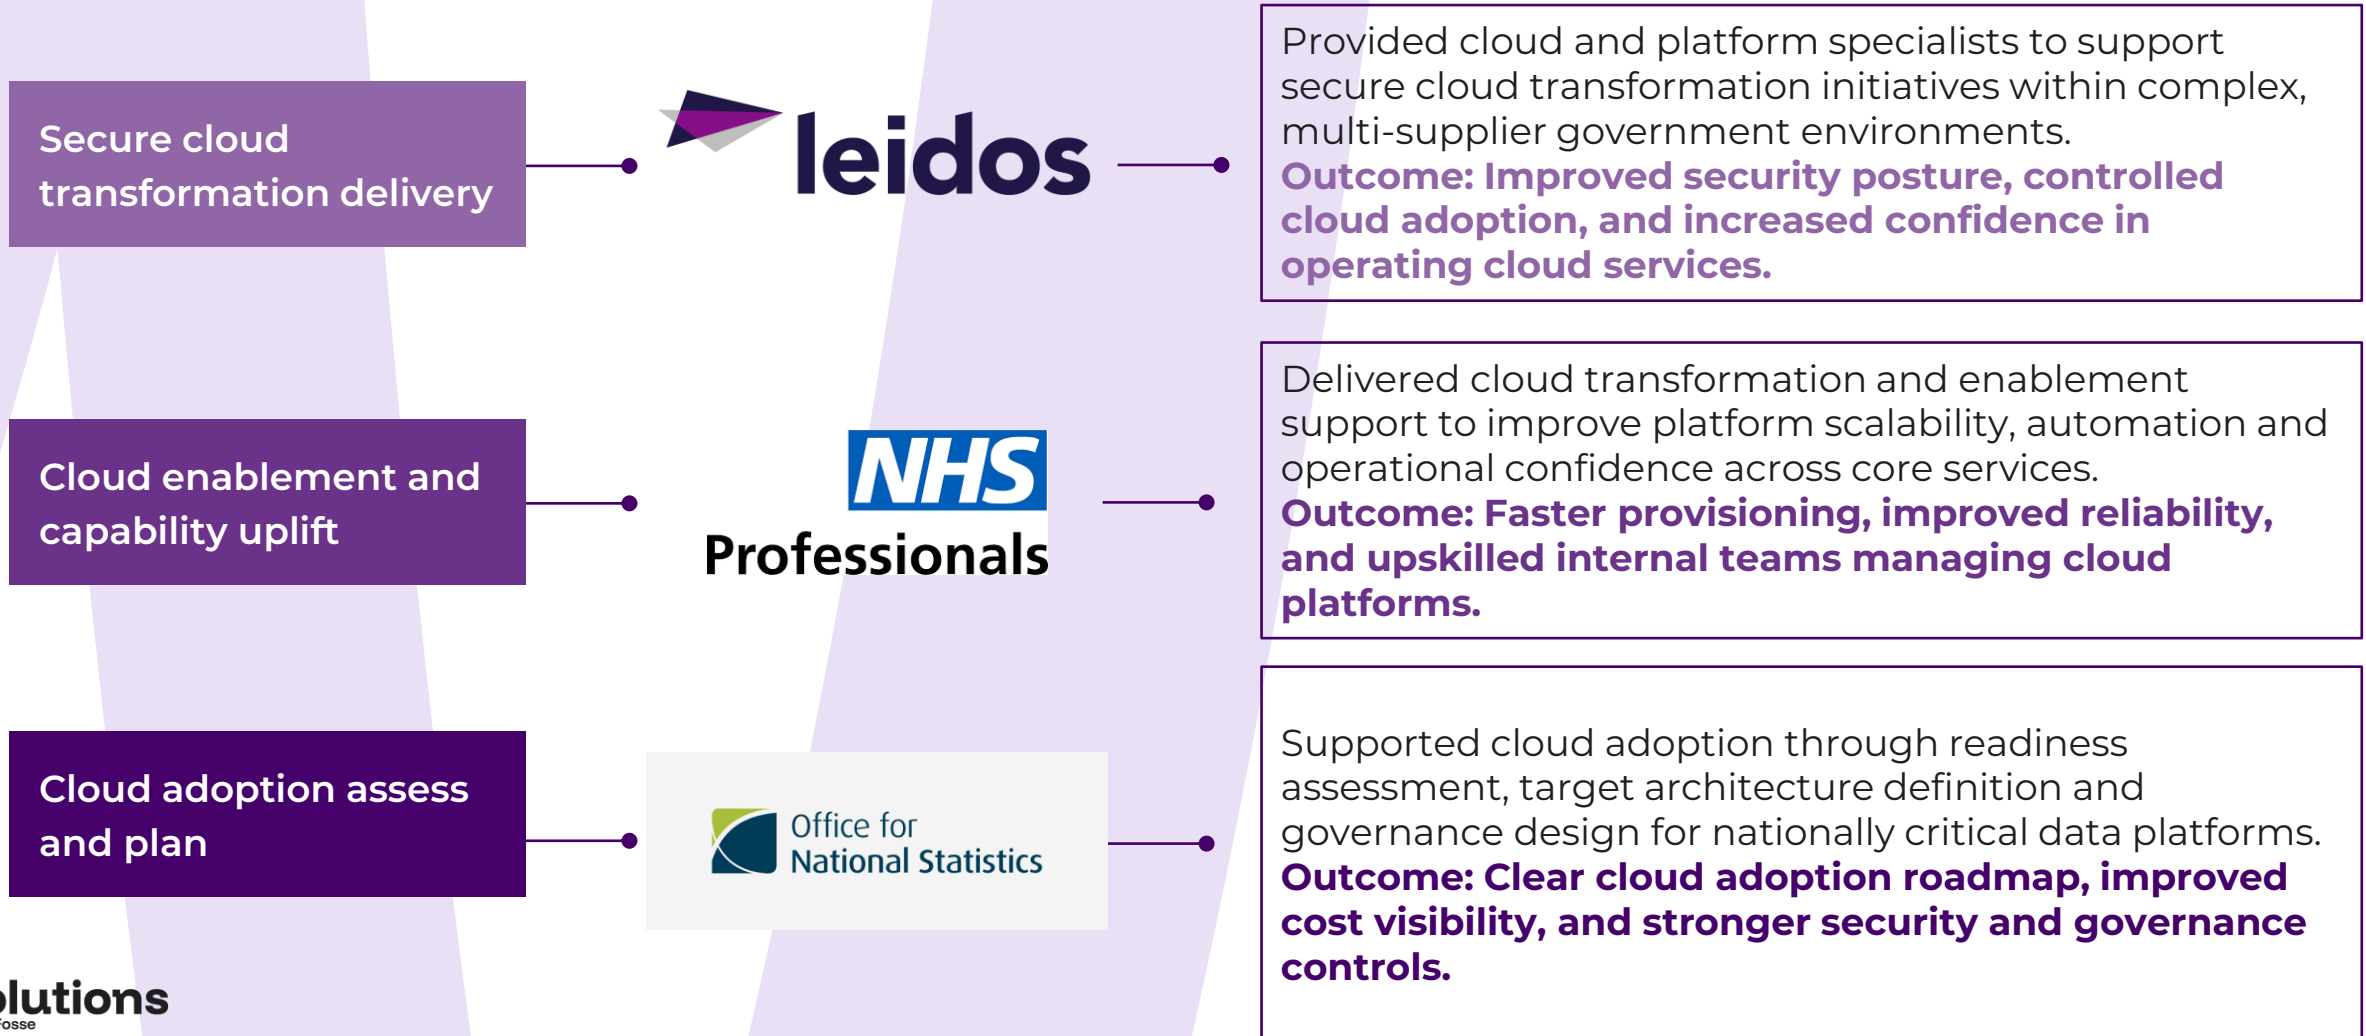

4

Measure and embed

Track benefits, delivery confidence and assurance outcomes, embedding sustainable change capability

Proven public sector impact

La Fosse accelerates the safe modernisation of legacy systems through a structured, factory-based migration approach. We assess readiness, manage dependencies, plan remediation and deliver controlled migration waves using automation and DevOps practices.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
