

Digital Forensics and Incident Readiness

La Fosse Capability

Preparing organisations to respond confidently to cyber and data incidents

La Fosse helps organisations prepare for, respond to and recover from cyber security incidents through digital forensics and incident readiness services. We assess forensic maturity, design response processes and deploy tooling aligned to NCSC guidance. Our approach ensures incidents can be investigated quickly, evidence is handled correctly and organisations are prepared to meet legal, regulatory and assurance requirements.

- **Forensic readiness assessments and tooling**
- **Incident-response playbooks and processes**
- **Evidence capture and chain-of-custody controls**
- **Training and operational enablement**

1

Assess and scope

Review incident-response maturity, systems and forensic requirements

2

Design and prepare

Define playbooks, evidence processes and readiness controls

3

Deploy and train

Implement tooling and train teams in forensic and response procedures

4

Assure and improve

Test readiness, refine processes and provide assurance documentation

Proven public sector impact

La Fosse strengthens incident readiness by combining forensic expertise with practical preparation and training. We help organisations establish repeatable processes and tooling so incidents can be investigated quickly, confidently and in line with legal and regulatory expectations.

Operational incident-response enablement

Delivered incident-readiness support and response planning within a regulated operational context.
Outcome: Improved incident preparedness, clearer escalation routes and reduced response time.

Incident readiness and forensic assurance

Supported incident readiness and assurance activities for nationally critical data services.
Outcome: Improved preparedness, clearer response processes and stronger audit confidence.

Forensic readiness within secure programmes

Provided forensic and incident-response expertise within secure government delivery environments.
Outcome: Faster forensic response, compliant evidence handling and reduced investigation risk.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
