

# FinOps and Cloud Cost Optimisation

---

**La Fosse Capability**

# Enabling transparent, value-driven cloud spend across public services

La Fosse helps public sector organisations gain control of cloud spend by embedding FinOps practices, governance and tooling. We analyse usage and cost drivers, design showback and chargeback models, and implement dashboards that link spend to business value. Our approach improves financial control, supports sustainability reporting and builds in-house capability for ongoing cost optimisation.

Cost transparency

Usage and spend analysis with clear dashboards for teams and leaders

Governance and controls

FinOps operating model, policies and accountability for cloud spend

Optimisation and savings

Identification and remediation of waste, right-sizing and efficiency actions

Forecasting and sustainability

Budget forecasting plus carbon and energy insights where available

- **Cloud cost visibility and reporting**
- **FinOps governance and accountability models**
- **Automated optimisation and savings controls**
- **Forecasting and sustainability insight**

1

### **Assess and baseline**

Analyse cloud usage, spend patterns, cost drivers and existing financial controls

2

### **Design governance and models**

Define FinOps operating model, roles, showback/chargeback and optimisation policies

3

### **Implement and optimise**

Deploy cost-management tooling, dashboards and automated optimisation actions

4

### **Embed and mature**

Transfer capability to internal teams, tracking savings, forecasts and sustainability metrics

# Proven public sector impact

La Fosse accelerates the safe modernisation of legacy systems through a structured, factory-based migration approach. We assess readiness, manage dependencies, plan remediation and deliver controlled migration waves using automation and DevOps practices.

Commercial and cost  
optimisation support

Provided commercial and cloud cost expertise to improve financial controls, supplier oversight and value-for-money assurance.

**Outcome: Better cost control, clearer accountability and improved budget forecasting.**

Cloud cost  
optimisation and  
enablement

Delivered FinOps and cost-optimisation support to improve cloud efficiency and embed sustainable financial management practices.

**Outcome: Reduced cloud spend, improved forecasting accuracy and increased confidence in ongoing cloud operations.**

Cloud cost  
transparency and  
governance

Supported cloud cost analysis, governance design and reporting across complex data and analytics platforms.

**Outcome: Improved cost visibility, stronger financial governance and more informed investment decisions.**

# Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
