

Release and Environment Management

La Fosse Capability

Delivering controlled, predictable releases across complex environments

La Fosse provides release and environment management services to coordinate deployments across complex, multi-supplier digital landscapes. We establish release governance, environment strategies and automated deployment controls aligned to ITIL 4 and CAB processes. Our approach reduces deployment risk, improves predictability and ensures releases are auditable, repeatable and well-coordinated.

Release governance and control

Clear approval workflows aligned to CAB and assurance processes

Environment strategy and planning

Defined environments supporting development, testing and release

Deployment automation

Controlled, repeatable release pipelines

Visibility and reporting

Dashboards showing release status, risk and readiness

- **Release governance and coordination**
- **Environment design and management**
- **Automated deployment and controls**
- **Audit and assurance reporting**

1

Assess and plan

Review release processes, environments, risks and dependencies

2

Design governance and environments

Define release models, approval workflows and environment strategies

3

Implement and automate

Configure pipelines, deployment tooling and reporting dashboards

4

Operate and optimise

Coordinate releases, manage environments and drive continuous improvement

Proven public sector impact

La Fosse improves release confidence by combining strong governance with practical delivery controls. We help organisations manage environments and releases predictably, reducing risk while supporting frequent, reliable deployments.

Operational release coordination

Office for
National Statistics

Supported release planning and environment coordination across nationally critical digital services.
Outcome: Improved deployment visibility, fewer release issues and stronger audit confidence.

Release governance for complex programmes

leidos

Provided release and environment management expertise within secure, multi-supplier government delivery programmes.
Outcome: Predictable release cadence, reduced deployment risk and improved assurance.

Release management for live services

Professionals

Delivered release and environment coordination to support stable operation of live digital services.
Outcome: Reduced downtime, smoother releases and improved service stability.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
