

Security Posture and Controls Assessment

La Fosse Capability

Providing clear, evidence-based assurance of cyber security posture

La Fosse provides independent assessment of cyber security posture against recognised government and industry frameworks, including NCSC CAF, CIS Controls and ISO 27001. We assess technical controls, architecture and operational practices, identifying risk and prioritised remediation actions. Our approach supports audit, regulatory compliance and informed decision-making, while strengthening organisational security capability.

- **Independent security posture assessment**
- **Framework-aligned control evaluation**
- **Threat, vulnerability and architecture review**
- **Actionable remediation and assurance reporting**

Proven public sector impact

La Fosse accelerates the safe modernisation of legacy systems through a structured, factory-based migration approach. We assess readiness, manage dependencies, plan remediation and deliver controlled migration waves using automation and DevOps practices.

Security posture
assessment and
assurance

Delivered security and assurance assessment to support regulatory operations and strengthen compliance with recognised cyber security standards.

Outcome: Improved visibility of security risks, clearer remediation priorities and increased audit confidence.

Cloud cost
optimisation and
enablement

Delivered FinOps and cost-optimisation support to improve cloud efficiency and embed sustainable financial management practices.

Outcome: Reduced cloud spend, improved forecasting accuracy and increased confidence in ongoing cloud operations.

Secure programme
assurance support

Provided cyber security assurance and controls assessment support within complex, secure government delivery environments.

Outcome: Improved control effectiveness, reduced security risk and stronger compliance with assurance requirements.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
