

Pricing Information MDSAS Software Services

This document outlines pricing for IT services provided MDSAS. Pricing is flexible and may be adjusted based on service complexity, scale, integration requirements, and service levels.

MDSAS can provide quotations for work via fixed quotation based on a licence/and/or the individual SFIA rate card. See below for the applicable prices for those services by daily rate or licence. For each project a range of services and resources will be employed, and rates can be blended accordingly, bespoke to each project.

With bespoke projects, MDSAS can offer flexible pricing options for licencing and daily rates, depending on the application and its future market potential / scope.

Configuration and install will be costed in accordance with client requirements, using daily rate costs.

Skills For the Information Age (SFIA) Definitions & Rate Card

	Strategy & architecture	Business change	Solution development & implementation	Service management	Procurement & management support	Client interface
1. Follow	744	600	468	468	468	468
