

## TERMS Evolution Managed Pricing

Managed systems are quoted to enable the best customised options for your service and requirements. We will work with you to make sure that we provide the service that is needed under a signed agreement.

The service might be fully managed, including data entry. This is charged in blocks of 200 learners at £2,000 per block per year. Each block also provides an access licence for TERMS.

As an example, to manage 1480 classroom based Learners within one year will require 8 Blocks of Managed Learners at a cost of £16,000 per year and would include 8 logon licences.

If less direct management is required then we offer a 50% discount on our normal rates for a customised service that can cover various processes, such as LRS, DfE Sign-in, ILR Production and submission, Analysis Reporting, FIS Validation, etc.
