Ideagen Contracts Compliance Pricing Document

Ideagen Contracts Compliance is a best in class contract management system for organisations requiring robust Contract Lifecycle Management Solutions.

Platform fees are an annual charge and pricing is per-user and based on a SaaS cloud hosted platform.

Implementation fees are based on the number of days required, which are influenced by the plan (Premium, Enterprise).

The implementation fees are included in the annual price for multi-year agreements. Additional hours are available at an additional cost per day.

For single-year agreements, please reach out to your Ideagen Point of Contact for a bespoke quote.

There is then an additional cost based on the number of viewer licences, documents, manager licences, and submitter licences required. Costs are cumulative within tiers, hence pricing for the initial tier is as given, followed by specific pricing for subsequent bands.

Optional Add-ons are available for the Premium plan, including OCR and AI capabilities and CRM integration. The CRM integration is also available as an Add-on for the Enterprise plan, which includes the OCR and AI capabilities as standard.

Customer Success Packs are available at three levels: Essential (no additional charge), Standard (15% uplift on licence fees) and Premier (25% uplift on licence fees), providing varying levels of support.

Step-by-Step Pricing Calculation Guide

Follow these eight steps to calculate your total annual subscription cost for Ideagen Contracts Compliance. Each step includes detailed instructions and calculation examples to ensure accuracy.

1. **Determine Your User Requirements** - Assess how many users you need in each category:

- Managers (minimum 10): Legal, compliance, procurement, contract administrators
- Submitters (optional): Sales, finance, operations staff who initiate contracts
- Viewers (minimum 50): Executives, auditors, general staff with read-only access

Example: 15 Managers, 30 Submitters, 100 Viewers

2. **Choose Your Plan** - Select Premium or Enterprise based on your needs.

Example Selection: Premium Plan

3. **Calculate Manager Licence Costs Using Cumulative Tiers** - For each tier consumed, multiply the number of users in that tier by the tier price, then sum all tiers.

Example: 15 Managers on Premium

- Tier 1 (user 1): $1 \times £2,646 = £2,646$
- Tier 2 (users 2-10): $9 \times £756 = £6,804$
- Tier 3 (users 11-15): $5 \times £491.40 = £2,457$
- Manager Total = £11,907

Running Total: £11,907
