IMPLEMENTATION

Implementation services are charged at our SFIA rate card rates. Effort is dependent upon the metadata enrichment processes required to fulfil your requirements and the cloud and on-premises infrastructure requirements. Contact us to discuss your requirements.

PRODUCT	DESCRIPTION	UNIT	PRICE
Aiimi Software Platform	Platform pricing is based upon the number of nodes that you require, which in turn is based upon the amount of content you are indexing (per 25TB of source content) and the disaster recovery mechanism you employ. Hot standby DR involves additional nodes, VM replication usually does not.	£30,000	Per node per Annum
AI Companion	Integration with the Large Language Model(s) of your choice, offering options for both on-premises, on-infrastructure and AI as a Service, for example Llama, Granite, OpenAI and Falcon. Also included are Retrieval Augmented Generation workflows and Extractive AI.	£30,000	Per Annum
