| Aiimi Software Platform     | Platform pricing is based upon the number of nodes that you require, which in turn is based upon the amount of content you are indexing (per 25TB of source content) and the disaster recovery mechanism you employ. Hot standby DR involves additional nodes, VM replication usually does not. | £30,000 | Per node per Annum |
| Privacy & Compliance Add-On | Includes Personal Data and PCI Data detection algorithms, the internal and external Subject Access Request Portal and the Personal Data and PCI Data audit dashboards.                                                                                                                          | £30,000 | Per Annum          |
