## Service Charges

1. All consultancy work is charged at time and materials and is built to design. If the consultancy purchased is to design a solution then this design must be signed off by key stakeholders as it is this design which will be used to build. Variations to this design may incur re-work.

## Expenses

1. All onsite expenses are to be recharged to the customer at cost.
2. Receipts to support these figures can be provided on request.

## Managed Application Service Charges

Our managed application service known as the *Vision Response Service (VRS)* will priced for on request as this will depend on the volume of tickets which will come through. The pricing will be based on our rate card (above).
