PRICING REQUEST

Get a custom quote

Wiz's pricing model depends on a few factors specific to your environment, so we'll need to get in touch to give you accurate pricing information.

How is Wiz licensed?

Wiz offers two different Cloud licenses for organizations to manage their security posture. Customers can choose optional add-on licenses that unlock additional capabilities like code security (Wiz Code), runtime workload protection (Wiz Sensor), and cloud threat detection and response (Wiz Defend). This allows your company flexibility to ensure your needs are met, no matter where you are on your cloud journey.

What is considered a workload?

Wiz Cloud licenses are based on the number of cloud workloads in your environment across compute, data, and AI workloads. For example, compute workloads include virtual machines, containers, and serverless functions.

Dimension	Description
Wiz Essential	Protect 100 cloud workloads
Wiz Advanced	Protect 100 cloud workloads
Wiz Sensor	100 Wiz Sensors. Add-on for Wiz Advanced
Wiz Code	100 Wiz Code Licenses. Add-on for Wiz Cloud
Wiz Defend	Ingest 300 GBs of logs per month. Add-on for Wiz Advanced

All prices are quoted in GBP (£).

All pricing is based on annual billing.

Volume discounts may apply for Enterprise or high usage users.

Additional license types and pricing options are available upon request.
