A single, dedicated Account Manager and Customer Success Manager to ensure you are set up and supported for success

→ **Trusted by the Government & Public Sector**

G-Cloud Certified Supplier, trusted to deliver secure solutions for Governments worldwide.

Generation Digital

Why Professional Services?

→ **People don't resist tools, they resist change.**

Professional services guide your teams through that change, turning hesitation into adoption.

→ **Change doesn't happen by itself.**

Implementation is easy. Adoption is the real challenge.

→ **Turn access into impact.**

Licenses open the door. Professional services make the tools work for your people and your organisation.

→ **Maximise ROI, faster!**

Accelerate time to value, boost adoption, and embed lasting change with expert guidance.

Why Customers invest in Services*:

37%

Faster Time to Value

Up to 2.5x

Increased Return on Investment (ROI)

50%

Reduced Risk of Project Failure

30%

Faster Adoption of New Features & Releases

✦ AI Enablement Pathway ✦

GD

Generation Digital offers virtual and in person AI enablement sessions to accelerate adoption and embed long term capability.

A dedicated, **AI certified Customer Success Manager** partners with your teams to deliver tailored **Blueprint, Onboarding, Adoption, and Growth** workshops focused on AI tools, automation design, and intelligent workflow optimisation.

Each workshop is designed to help your organisation build confidence with AI, refine data-driven processes, and embed scalable best practices that deliver lasting impact well beyond the training day.

Blueprint →

We assess your AI readiness and identify automation and integration opportunities through collaborative discovery sessions.

Outcome: A clear roadmap for embedding AI across people, processes, and platforms.

Onboarding →

We guide teams through live, interactive set up sessions - configuring AI tools, data governance and secure integrations.

Outcome: A scalable, AI ready environment that's compliant, efficient, and easy to manage.

Adoption →

We deliver practical workshops that build confidence and fluency with AI tools, workflows, and everyday use cases.

Outcome: Teams confidently apply AI to streamline work and accelerate decision making.

Growth →

We expand AI adoption across teams, aligning on scalable automations, data models, and performance insights.

Outcome: A connected ecosystem where AI delivers measurable impact enterprise wide.

Support →

We provide ongoing partnership to optimise performance, evolve workflows, and unlock new AI capabilities.

Outcome: A continuously improving AI ecosystem that drives long term success.

Generation Digital

Your Pathway to Success

Blueprint →

We start by assessing your organisation's AI readiness to create a roadmap that connects people, processes, and platforms for smarter, data-driven work.

The steps we take:

- Analyse your current systems, workflows, and knowledge flow
- Identify opportunities for automation, integration, and AI-assisted improvement
- Prioritise quick wins and define success metrics for each tool

Outcome: A clear, evidence-based blueprint that accelerates onboarding, reduces risk, and sets the foundation for measurable ROI across Asana, Miro, Notion, and Glean.

Onboarding →

We start by understanding your goals, structure, and workflows to design and migrate into a setup that's secure, scalable, and ready for AI-enhanced work.

The steps we take:

- Audit your current environment and configure governance settings
- Align tools, permissions, and integrations across platforms
- Deliver admin training and documentation for confident ownership
- Migrate data, projects, and users into a unified workspace

Outcome: A well-structured, compliant workspace built for clarity, efficiency, and long-term scalability.

Adoption →

We help teams move from initial setup to confident, consistent use. Adoption is about embedding change and building everyday habits that make AI tools genuinely useful.

The steps we take:

- Deliver hands-on onboarding and live enablement sessions
- Create tailored playbooks, templates, and role-based guides
- Support change management and internal champion programmes

Outcome: Confident teams using AI tools naturally and effectively—driving faster decisions and smarter work.

Growth →

Once early teams are thriving, we help expand success across the wider business. Growth focuses on standardising best practice and scaling impact enterprise-wide.

The steps we take:

- Extend adoption across departments, regions, and functions
- Design shared templates, automations, and governance models
- Integrate AI and reporting tools for leadership visibility

Outcome: A scalable, connected ecosystem where every team benefits from the same clarity, structure, and intelligent workflows.

Support →

We provide ongoing partnership to keep your workplace tools aligned with business goals and evolving AI capabilities.

The steps we take:

- Conduct periodic workspace reviews and optimisation sessions
- Enable new AI features and platform enhancements
- Offer continued advisory and best-practice guidance

Outcome: A secure, future-ready digital workplace that grows with your organisation and continues to deliver measurable value.

Generation Digital

Let's explore how we can help.

- 1) Connect with a GenD Account Executive
- 2) Share your current goals & challenges
- 3) Receive a tailored proposal built to your needs
