

Generation Digital

Generation Digital is an award winning consultancy that helps teams reimagine how they work through the power of enterprise AI tools.

As certified partners of multiple AI Products we help organisations unlock the full potential of AI-powered workplace tools, turning everyday systems into engines of efficiency and growth.

- Award-Winning Platinum Solutions Partner
- Global Client Base across Enterprise and Public Sector
- Experts in AI-assisted work, Collaboration, and Change Management

Huntress charges a simple per-endpoint (or per-user/data-source) subscription — you pay based on how many devices or accounts you protect, not by feature-tier.

There are no complicated bundles or add-ons: coverage from day one includes endpoint detection & response (EDR), 24/7 threat monitoring by a human-led SOC, and incident response.

As you add more devices or users, the cost scales linearly — making overall spend predictable, transparent, and directly aligned with your size and needs.

For more information and to receive an accurate, tailored quote in GBP please contact Generation Digital.

Simple pricing, based on our values

Managed EDR

Per-endpoint pricing

Endpoint detection and response technology without the headaches.

You get EDR technology and 24/7 threat detection and response by Huntress elite SOC all with simple pricing — no tiers, add-ons, or expensive bundles. Our SOC manages and monitors EDR around the clock for threats, takes active remediation, provides custom incident reporting, and more. Get Managed Antivirus for Microsoft Defender at no additional cost.

Managed SAT

Per-active-user pricing

Equip your employees with the tools and cyber expertise needed to protect themselves.

Includes fully-managed learning programs and phishing simulations with automated, detailed reporting and Customizable training content. Enjoy easy, rapid onboarding and deployment - all at no extra cost.

Managed ITDR

Per-identity pricing

Prevent account takeover and defend your Microsoft 365 identities and environments.

Includes 24/7, human-led SOC monitoring; detection for suspicious policy changes, privilege escalation, login events, mail flow manipulation, and more; automated threat remediation; custom incident reporting at no extra cost.

Managed SIEM

Per-source pricing

Cut costs, not corners with Huntress Managed SIEM.

Support compliance and experience 24/7 expert threat investigation and response, all at a predictable price. Huntress Managed SIEM eliminates billing complexity by charging per data source and pooling storage allocation across all sources. No overages, spikes, or surprises — just budget-friendly consistency.
