

Learning and Assessment Accelerator Pricing

G-Cloud Lot 3

Pricing Overview

Our Learning and Assessment Accelerator pricing reflects the efficiencies gained from leveraging our prebuilt components and configurable platform, allowing for faster, lower-cost implementation compared to fully bespoke development. We combine reusable IP with tailored delivery, ensuring rapid deployment aligned to your organisational needs.

Pricing is based on the specific configuration, integration, and enhancement work required. We use the Skills Framework for the Information Age (SFIA) rate card to estimate effort. While the accelerator provides a head start, all services are customised per project.

For more complex requirements or where assessment workflows or integrations need design input, we recommend starting with a short discovery phase. This typically starts from £5,000+ VAT.

Entry-Level Service Pricing and Scope

Typical pricing for an entry-level deployment (based on light customisation and basic integration) starts from **£40,000 + VAT**. This includes:

- Deployment of the Learning and Assessment Accelerator to your environment
- Configuration of assessment flows, scoring logic, and outcomes
- Integration with existing systems or single sign-on (where required)
- Basic analytics and reporting dashboards

Service Planning and Pricing Guidance

If you require assistance scoping your learning or assessment solution, contact our team at g-cloud@talkthinkdo.com. We'll help configure the right approach for your needs.

Our SFIA-aligned pricing is flexible and transparent. We can offer:

- Time-and-materials or capped project pricing
- Discounted day rates for educational institutions
- Support for budget-driven project planning

We typically recommend a 2-3 week discovery and configuration cycle, followed by a short build and test phase, before handover and hypercare.
