

1. BASIS OF CONTRACT

Your order (“Order”) constitutes an offer by you (“You” or the “Customer”) to purchase from QRoutes Ltd (“Us”, “We” or “QRoutes”) a product subscription (including any trial) (“Subscription”), consultancy services (“Consultancy”) or bespoke development (“Development”) in accordance with these terms and conditions (“Conditions”). In these Conditions “Subscription”, “Consultancy” and “Development” shall together and separately (as applicable) be referred to as “Services”.

The Order shall be deemed to be accepted on the earlier of (1) the date We issue written acceptance of the Order and (2) the date You commence use of any of the Services, at which point and on which date the agreement between us for the supply of Services in accordance with these Conditions (the “Agreement”) shall come into existence (“Commencement Date”).

Unless We agree otherwise, these Conditions apply to the Agreement to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by law, trade, custom, practice or course of dealing.

SCHEDULE 1: SERVICE LEVEL AGREEMENT

This Service Level Agreement details the availability of QRoutes' subscription services, the support available for users of those services, and the remedies available to customers if service performance falls below the level committed hereto.

1. Service Availability

1.1 Uptime Commitment

QRoutes aims to provide **99.5% monthly uptime**, excluding scheduled maintenance and force majeure events. Uptime is defined as the percentage of total minutes in a calendar month during which the service is available and functioning as intended.

1.2 Scheduled Maintenance

Scheduled maintenance will be performed either:

- between 10:00 pm and 02:00 am UK time, or
- between 08:00 pm and 08:00 am UK time provided that QRoutes has used reasonable endeavours to provide users notice of such at least one (1) business day in advance.

2. Support Services

Subscription services contain in-application help. Customers may also initiate a helpdesk ticket by electronic mail to support@qroutes.co.uk or via the in-application help at any time.

3. Incident Severity Levels

QRoutes categorise and respond to support tickets as follows:

Severity	Description	Initial Response	Target Resolution
1 – Critical	Service unavailable for all users	1 hour	4 hours
2 – High	Service is severely degraded	4 hours	1 business day
3 – Medium	Service is impaired	1 business day	7 business days
4 – Normal	Little impact, workaround available	1 business day	1 month
5 – Low	No service impact	1 business day	Next release

4. Service Credits

Customers are eligible for service credits if the monthly uptime falls below the committed levels:

Monthly uptime	Credit
< 99.5% and ≥ 98.5%	5% of monthly fee
< 98.5%	10% of monthly fee

- Credits must be requested within thirty (30) days of the affected month.
- Maximum credit per month: 10%.
- Credits apply to future invoices only.
 - If the Agreement terminates before credits can be applied, the Customer may request a refund equivalent to the credit amount.

SCHEDULE 2: PROCESSING PERSONAL DATA

1. Processing by QRoutes

1.1 Scope

QRoutes processes multiple individual journey requirements to produce transport plans. The plans may be a set of vehicle routes with scheduled pick-up and drop-off points for each individual and/or walking routes for each individual to reach a specified destination.

1.2 Nature

The Customer can interact with QRoutes in three ways:

1. **File processing.** The user uploads a set of journey requirements to the QRoutes cloud-based application (data transmission and storage), uses the application to process the data (automated data use) and downloads any resulting transport plan (data transmission).
2. **File storage.** The user chooses to store and manage journey requirements and/or transport plans in QRoutes' cloud storage (data transmission and storage).
3. **Delegated processing.** The user shares a set of journey requirements with QRoutes staff via a designated data sharing location (data transmission and storage), enabling QRoutes to examine and process the data (automated data use) and to share any resulting transport plan with the Customer (storage and data transmission).

1.3 Purpose of the processing

With respect to the three use cases of 1.2:

1. **File processing.** The purpose of the processing is to create transport plans that best meet the Customer's objectives. Those objectives – such as minimising the number of vehicles required, minimising total distance travelled, minimising journey time, and/or minimising walking distance - can be configured within the QRoutes applications.
2. **File storage.** The purpose of the processing is to retain team-accessible, version-controlled copies of transport plans between user planning sessions. An additional purpose may be to provide plan access to Customer approved third parties, such as transport operators.
3. **Delegated processing.** The purpose of the processing may include creating transport plans on behalf of the Customer (consultancy), demonstrating the application to the Customer, assisting with training of the Customer's staff, or reproducing Customer reported issues to support bug fixing or feature development.

1.4 Duration of the processing

With respect to the three use cases of 1.2:

1. **File processing.** Processing lasts only for the duration of the user's session in the QRoutes application. The applications do not store Customer data persistently and neither QRoutes staff nor any other user can access Customer data during the user's session.
2. **File storage.** QRoutes will permanently delete any stored Customer data within one week of either a) receipt of the Customer's written instruction to delete the data, or b) the Customer no longer holding an active QRoutes product subscription.
3. **Delegated processing.** QRoutes will begin processing the Customer data within one month of receiving both the Customer data and the Customer's written instructions. QRoutes will permanently delete all original and processed Customer data within one week of either a) receipt of the Customer's written instruction to delete the data, or b) (for a product subscription Customer) the Customer no longer holding an active QRoutes product subscription, or c) (for a consultancy Customer) receipt of the Customer's written confirmation that the delegated processing is complete, or d) in any case, the yearly anniversary of the receipt of the original data.
