G-CLOUD 15 – Service Definition Document

Project Management Services

Dear Buyer,

Nova Aerospace Ltd (t/a Nova Systems) is delighted to offer the following services to all the buyers on the G-Cloud 15 framework.

Nova Systems has a strong track record in successful project/programme delivery and can provide a robust delivery service. Nova Systems has led, managed, and delivered a range of technically complex projects and programmes across various sectors for national and international Government and Commercial clients.

Nova Systems can deliver this by offering the following key service features:

Key Service features

- Clear and pragmatic project/programme leadership and governance.
- Controlled management of project/programme performance (quality), cost, and time.
- Accurate, timely, and detailed reporting of project status.
- Focused and realistic risk management.
- Effective control of project scope and work break down structure.
- Development and management of a realistic, logical, and robust schedule.
- Clear pathways for rectifying/recovering project slippage.
- Effective use of a variety of methodologies, including Agile, Waterfall and Hybrid.
- Engaging and focused stakeholder management.

Service benefits

- Enhanced confidence in project and programme delivery – ensuring outcomes are achieved reliably and on time.
- Significantly mitigates overall project risk – reducing uncertainty and safeguarding success.
- Delivers measurable improvements in performance, cost efficiency, and time-to-completion.
- Elevates customer situational awareness – enabling informed decision making.
- Creates highly informed and engaged stakeholders – fostering collaboration and trust throughout the process.

Kind Regards,

David Cooper
