G-Cloud 15 Service Definition

Who We Are

Bespoke Web and Software Solutions Built to Perform

Empowering businesses through secure, scalable, and user-focused digital solutions, from bespoke web development and design to strategic transformation that drives measurable results.

Since 1999, Juicy Media Ltd Group has specialised in delivering end-to-end digital services, including user experience, design, and development across platforms such as WordPress, WooCommerce, Umbraco, Drupal, Shopify, and Joomla. We combine technical expertise with strategic insight to create solutions that evolve with your business. Alongside our secure, scalable cloud hosting on AWS and Azure, we are proud to hold ISO 9001, ISO 27001, and Cyber Essentials Plus certifications. Our approach is entirely bespoke, no pre-set packages, just a close partnership to understand your goals and deliver on time and on budget. Uniquely, our entire UK-based team is security vetted to eDV, DV and SC clearance levels, ensuring every project is built with trust, quality, and security at its foundation.

Mission

At Juicy Media Group, our mission is to empower organisations with intelligent, future-ready digital solutions that drive efficiency, creativity, and confidence. We aim to elevate the technological and strategic capabilities of our clients, enabling them to thrive in an ever-evolving digital landscape. Every project we undertake is guided by a commitment to innovation, simplicity, and measurable impact, ensuring our clients can grow with clarity, purpose, and momentum.

Vision

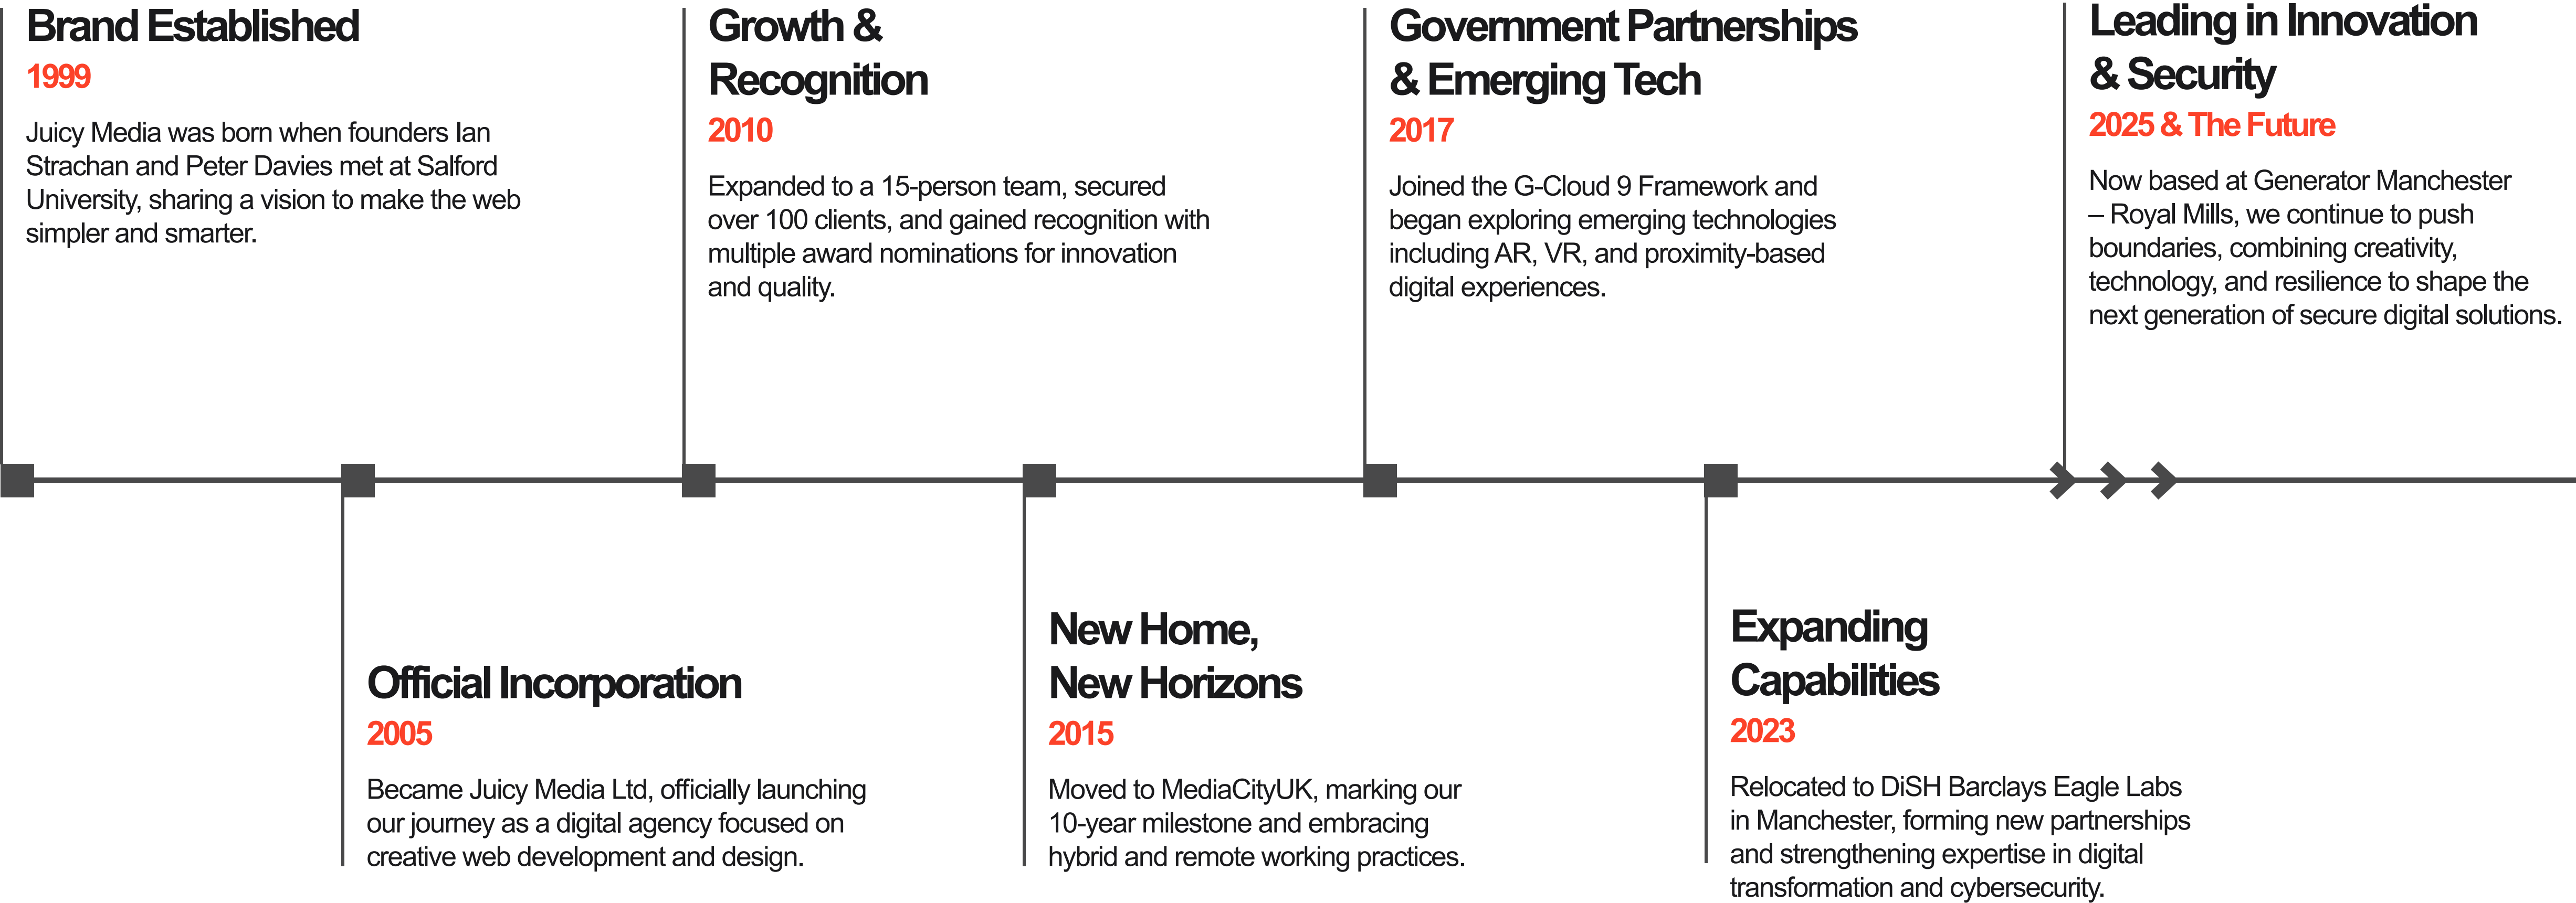

Our vision is to foster prosperity and growth for every client we serve, becoming a trusted and respected leader in technology, security, and development. We strive to be recognised not only for the quality of our work but also for the integrity and forward-thinking approach that defines our culture. By blending creativity with precision and ambition with accountability, we aim to shape a future where digital transformation is accessible, secure, and empowering for all.

Values

Our values define who we are and how we work. We believe in innovation without complication, transforming complex challenges into simple, effective solutions that create real value. We combine creativity and logic in everything we do, encouraging fresh perspectives and open-minded thinking to uncover opportunities others may overlook. Collaboration, trust, and excellence guide our every decision, ensuring that we deliver not just results, but lasting partnerships built on integrity and shared success.

Our History

Over two decades, Juicy Media has evolved from a small digital studio into a multi-brand group delivering transformation across technology, design, and cybersecurity. Our story is one of innovation, collaboration, and continual reinvention, growing alongside our clients and the ever-changing digital landscape.

Our Brands & Products

Juicy Media Group brings together a family of specialist brands and technologies — each designed to solve complex challenges across digital, defence, and intelligence sectors. From enterprise-grade web development to advanced cyber solutions, our ecosystem combines innovation, security, and performance.

Protecting Critical Systems & Infrastructure

Cyber Defence Service is dedicated to safeguarding organisations from cyber, electromagnetic, and radio-frequency threats. Trusted by defence, law enforcement, and critical national infrastructure, CDS delivers real-time intelligence, secure platforms, and advanced analytics powered by AI and machine learning.

Digital Transformation, Branding & Integration

Reba Tech is our full-service digital transformation agency, helping organisations reimagine how they engage with technology and audiences. From web and app development to branding and content strategy, Reba Tech builds seamless systems that connect people, data, and business goals.

FlockFire AI®

Intelligent Threat Detection Anywhere

A rugged, portable cybersecurity device that uses deep learning to detect and neutralise malware, including zero-day threats, even in offline or extreme environments.

CYRILLIAN®

Secure OSINT Without a Trace

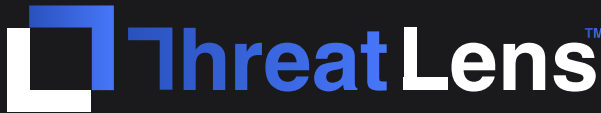

A privacy-focused intelligence platform that enables anonymous, encrypted OSINT research through disposable browser sessions and integrated investigative tools.

OVERT AI®

Signal Intelligence, Reimagined

An AI-powered solution that monitors and analyses wireless and RF environments in real time, helping defence, law enforcement, and critical infrastructure stay secure from emerging threats.

Threat Lens™

Predict. Detect. Respond.

An advanced situational awareness platform that delivers real-time threat intelligence and behavioural analytics to help organisations anticipate and respond to cyber risks proactively.

**Tailored web &
software development
that fuels growth**

You name it,
We'll make it

Websites

We design and develop websites that are more than just digital brochures, they're engaging experiences that capture your brand's essence. From sleek and modern designs to high-performance functionality, we ensure your website leaves a lasting impression on every visitor.

- Custom Design
- Responsive Development
- SEO and AIO
- Performance & Speed
- Content Management
- Integration

Mobile & Web Apps

We create powerful, user-focused applications that connect people and streamline processes. Whether it's a mobile-first experience, an internal platform, or a data-driven web app, we design and build solutions that deliver real impact. From concept to deployment, our apps are intuitive, secure, and built to perform across all devices.

- Cross-Platform Development
- UX/UI Design
- API Integration
- Secure Authentication
- Data Visualisation
- Cloud Deployment

Brands

We craft brands that tell your story with clarity and confidence. From strategy and identity design to digital presence, we help you define who you are and how you're seen. Every element, from logo to tone of voice, is built to resonate with your audience and stand strong across every channel.

- Brand Strategy
- Visual Identity
- Messaging & Tone
- Brand Guidelines
- Digital & Print Assets
- Campaign Support

Design

- Branding
- Graphic Design
- Brand Guidelines

Great design is more than just aesthetics. It’s about creating a brand identity that resonates. We craft visually compelling and strategically sound designs that elevate your business and build lasting impressions.

Web Design & User Experience

- Prototyping
- Wireframing
- UX/UI Design

We design intuitive and engaging digital experiences that captivate users and drive conversions. Our user-first approach ensures that every interaction is seamless and impactful.

Development

- App Development
- Web Development
- Database Design

Our expert development team transforms ideas into high-performance websites and applications. We build scalable, secure, and responsive digital solutions tailored to your business needs.

Security

- Hosting
- Data Security
- Performance Optimisation

We provide secure, reliable, and high-performance hosting solutions to keep your website running smoothly. Our focus on security and optimisation ensures your digital presence remains fast and protected.

Trusted by

We're proud to be trusted by a diverse range of clients from central and local government, public sector bodies, start-ups through to SMEs and PLCs, delivering effective, reliable solutions that meet complex digital challenges.

Government

SMEs

PLCs

Partners & Frameworks

At Juicy Media, we're proud to work within a network of trusted frameworks and partnerships that reflect our commitment to excellence, security, and continuous improvement. Our accreditations and affiliations demonstrate adherence to the highest standards in quality management, information security, and digital service delivery. Through collaboration with leading technology providers, government frameworks, and industry partners, we ensure our solutions are secure, compliant, and future-ready, giving our clients the confidence that every project is built on a foundation of trust, integrity, and technical excellence.

Certificate Number 25252

Certificate Number 25252

SFIA Rate Card

We provide an easy fixed discounted day rate and hourly rate to our G-Cloud customers.

Our rates have specifically been reviewed inline with the G-Cloud requirements of providing value for money and quality of service. Allowing us to provide cost effective services, solutions and support to your project.

Role	Rate / Day excl. VAT	Rate / Hour excl. VAT
Director Level	From £750	From £110
Project Management	From £695	From £100
Digital Strategist	From £650	From £95
Technical Lead	From £650	From £95
QA Tester	From £595	From £90
Visual Designer	From £650	From £95
UX Designer	From £595	From £90
Marketing Strategist	From £595	From £90
Backend Developer	From £650	From £95
Frontend Developer	From £650	From £95
Security Specialist	From £650	From £95
Systems Admin	From £595	From £90

Change Requests

Even though we do our best at the outset to capture all your requirements if you need to make a change or make an addition, we will review with you and let you know what the additional cost and timeline implications are.

Travel & Expenses

We always apply common sense, so any travel and subsistence charges are dependent upon project scope and location and are confirmed within our initial tendering process. Other out of pocket expenses are chargeable by prior arrangement with you.

VAT

We charge VAT at the applicable rate on all our services.

Working Day

8 hours inclusive of travel and lunch

Working Week

Monday - Friday excluding national holidays

Office Hours

08:30 – 18:00, Monday to Friday

Travel, Mileage Subsistence

Included in day rate within 5 miles of M50 2ST

**Innovating with purpose.
Delivering with precision.**

Managed Hosting

All of our solutions are cloud agnostic and based on OCI-standard containers, meaning that the delivery of the application isn't dependent on any one single vendor-based.

We can utilise the customers own choice of cloud provider, which in most cases will offer a suitable PaaS solution such as with Amazon Web Services, Microsoft Azure, or RedHat OpenShift.

Hosting Costs and Options

Role	Expected Traffic Levels Per Day	Estimated Cost, Per Month
Option 1	1500	£350
Option 2	2500	£550
Option 3	4500	£650
Option 4	7500	£800
Option 5	P.O.A	P.O.A

Prices are exclusive of VAT at applicable rate

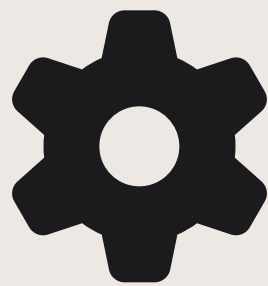

Flexible Cloud Hosting & AWS Expertise

Our managed hosting approach is designed for flexibility and efficiency. By remaining cloud-agnostic and leveraging OCI-standard containers, we ensure your application isn't tied to a single provider, giving you the freedom to choose the platform that best fits your needs. For organisations opting for AWS, we offer end-to-end expertise, from cost optimisation and seamless migration to ongoing security, governance, and compliance support.

Cost Savings & Optimisation

The need to reduce costs is likely influencing your move to the cloud. We can analyse your AWS configuration regularly, looking for ways to save you money and improve performance as your needs change.

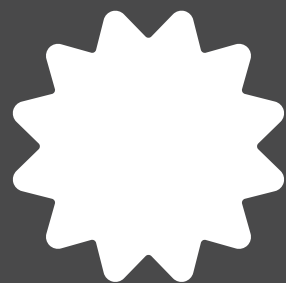

Migrations

Moving to AWS can be intimidating and overwhelming for those without experience. We can use our proven methods to help reduce interruption and risk as you take this critical first step into the cloud.

Expertise

Finding and retaining in-house AWS expertise is a challenge. We have multiple AWS technical certifications and our solution architects will design AWS based on your business needs.

Security, Governance & Compliance

Security, governance and compliance are top concerns. We deliver a powerful combination of certified experts and management tools to help secure your environment and data for compliance.

Our Support Packages

We can provide as much or as little support as you require. We also provide the following typical packages that are available on a monthly basis.

Prices shown are based on a 12-month contract and are billed on a monthly basis with a 3 month notice period. All support packages also benefit from CI/CD, version control processes and regular security patching and updating.

Operational Support

Service	Hours	Cost Per Month
Basic - Support	Office Hours 09:00-17:00 Mon-Fri*	£750
Standard - Business as Usual	Office Hours 09:00-17:00 Mon-Fri*	£1,250
Enterprise - Business Critical	24 Hours Mon-Fri	£3,000

Prices are exclusive of VAT at applicable rate

Proactive Support

Provision of pre-authorised time to allow our developers to make small amends and create new functionality as required. Without having to go through the process of procurement for an hour's task.

Hours	Hourly Rate	Cost Per Month
7 Hours	£90	£630
10 Hours	£85	£850
14 Hours	£80	£1,120
Additional Adhoc Hours	£105	-

Prices are exclusive of VAT at applicable rate

As a multi-disciplinary team, we can provide proactive and operational support for all your digital transformation needs. Together we can create a strategic digital roadmap and spread the cost of development through the calendar year. We even let you bank your unused hours so that you can do a bigger project later in the year.

Common sense driven support packages covered with our multi award winning Service Level Agreement.

**Digital transformation,
done right.**
