**NetClean Threat Analysis - Cloud
Software Pricing**

Price List

Pricing Model

NetClean is licensed on a subscription basis, charged annually in advance for the agreed contract term. Pricing is based on the number of licensed users or endpoints. The prices listed below represent maximum charges under this framework agreement.

Platform License

License Metric	Unit Description	Maximum Unit Price (£)	Billing Frequency
Platform Licence	Per user or endpoint, providing access to the NetClean cloud software platform and associated functionality	£66.00	£5,000

Contract Duration

Minimum contract term is 12 months. Pricing is fixed for the duration of the agreed contract term.

Onboarding and Setup

Access to the NetClean platform is provided following contract award and licence activation. There are no mandatory onboarding or setup fees included in the software licence. Optional onboarding, training, or professional services are available separately if required.

Assumptions and Exclusions

Pricing covers software licensing only. Professional services, managed services, or bespoke development are not included. Prices listed are maximum charges under the G-Cloud 15 framework. VAT is charged at the prevailing rate.
