Service Description

Accelerated Delivery Services

Service Definition

Rapid delivery methodologies accelerating cloud initiatives from concept to production. We provide design sprints, hackathons, MVP development and agile coaching to compress delivery timelines. Our proven acceleration techniques combine user research, prototyping and iterative development, enabling quick wins, fast learning and early value realisation whilst maintaining quality and compliance standards.

Features & Benefits

Features

- Five-day design sprints for problem solving using ecosystem Hive Mind
- Hackathons and innovation challenges to solve complex challenges
- Rapid prototype development in two weeks
- Minimum Viable Product delivery within months
- Agile coaching and Scrum Master services
- Fast-track user research and testing
- Accelerated proof-of-concept development and validation
- Quick-win identification and implementation workshops
- Sprint zero setup and team mobilisation
- Continuous delivery pipeline establishment

Benefits

- Deliver working solutions 70% faster than traditional
- Validate ideas before major investment commitment
- Achieve quick wins within first month
- Reduce project risk through rapid iteration
- Gain user feedback in days not months
- Build stakeholder confidence through visible progress
- Fail fast and pivot without waste
- Accelerate time-to-value for cloud investments
- Meet urgent policy implementation deadlines successfully
- Create momentum for wider transformation programmes

About Us

About i10

We exist to help clients to be the best they can be.

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

Introductions

Be Your Best

Our consulting engagements are all about outcomes.

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

Almost 20 years

Transforming public sector clients

GDS

User-Centric

We use GDS-aligned techniques

Social Value

Making a real difference to clients and the community

**DD&T
P&P**

End to End Transformation

Covering People, Process, Technology, Data & Digital

Knowledge Transfer

Additional value through coaching & upskilling

Collaborative

Highly transparent, engaging and collaborative approach

i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

i10 Ecosystem - Tech specialisms & partnerships

How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

Hive Mind

Cloud Transformation

User-centric, agile delivery
