# Service Description

# Cloud Security & Compliance

## Service Definition

Comprehensive cloud security services protecting data, applications and infrastructure against evolving threats. We deliver security architecture, zero-trust implementation, compliance frameworks and continuous monitoring. Our certified experts ensure Government Security Classification compliance, implement defence-in-depth strategies and provide incident response capabilities whilst maintaining regulatory alignment and protecting citizen data effectively.

# Features & Benefits

## Features

- Cloud security architecture design and implementation
- Zero-trust network architecture and identity management
- Government Security Classification (OFFICIAL) compliance setup
- Security monitoring, SIEM and incident response
- Vulnerability assessments and penetration testing services
- Cloud encryption and key management solutions
- Compliance automation for ISO27001, NIST frameworks
- Data loss prevention and threat protection
- Security posture assessment and remediation planning
- Identity federation and privileged access management

## Benefits

- Achieve OFFICIAL classification compliance for government data
- Reduce security incidents by up to 80%
- Meet NCSC cloud security principles requirements
- Detect and respond to threats within minutes
- Ensure GDPR and data protection compliance
- Lower security operational costs through automation
- Protect citizen data with military-grade encryption
- Pass GDS security assessments first time
- Maintain continuous compliance with automated controls
- Build trust through transparent security practices

# About Us

# About i10

**We exist to help clients to be the best they can be.**

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

# Introductions

## Be Your Best

**Our consulting engagements are all about outcomes.**

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

**Almost 20 years**

Transforming public sector clients

GDS

**User-Centric**

We use GDS-aligned techniques

**Social Value**

Making a real difference to clients and the community

**DD&T  
P&P**

**End to End Transformation**

Covering People, Process, Technology, Data & Digital

**Knowledge Transfer**

Additional value through coaching & upskilling

**Collaborative**

Highly transparent, engaging and collaborative approach

# i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

# i10 Ecosystem - Tech specialisms & partnerships

# How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

## Hive Mind

# Cloud Transformation

User-centric, agile delivery

Our services are aligned with:

- GDS Service Manual
- Technology Code of Practice
- HMG Cyber Security Principles
- Gov.uk
- NCSC Cloud Security Principles
- WCAG 2.1AA Accessibility Standards

**BE YOUR BEST**
