Service Description

Cloud Capability As A Service

Service Definition

Comprehensive cloud capability building service delivering skills, processes, governance and tools to establish sustainable cloud competency within your organisation. We provide assessment, training, mentoring, framework development and Centre of Excellence setup, enabling successful cloud adoption through embedded expertise, knowledge transfer and practical hands-on support for your teams.

Features & Benefits

Features

- Cloud maturity assessment and capability gap analysis
- Tailored cloud skills training and certification programs
- Cloud Centre of Excellence establishment and operation
- Embedded cloud experts providing hands-on knowledge transfer
- Cloud governance frameworks and best practice implementation
- Role-specific cloud competency development pathways
- Cloud operating model design and implementation support
- Continuous mentoring and coaching for technical teams
- Cloud toolchain selection and implementation guidance
- Agile and DevOps culture transformation programmes

Benefits

- Rapidly build internal cloud expertise and self-sufficiency
- Reduce dependency on expensive external consultants
- Accelerate cloud adoption with proven methodologies
- Minimise cloud transformation risks through guided approach
- Achieve faster time-to-value from cloud investments
- Build sustainable long-term cloud capabilities internally
- Improve staff retention through skills development
- Enable innovation through modern cloud practices
- Ensure compliance with GDS standards and requirements
- Create competitive advantage through digital transformation capability

About Us

About i10

We exist to help clients to be the best they can be.

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

Introductions

Be Your Best

Our consulting engagements are all about outcomes.

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

Almost 20 years

Transforming public sector clients

GDS

User-Centric

We use GDS-aligned techniques

Social Value

Making a real difference to clients and the community

**DD&T
P&P**

End to End Transformation

Covering People, Process, Technology, Data & Digital

Knowledge Transfer

Additional value through coaching & upskilling

Collaborative

Highly transparent, engaging and collaborative approach

i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

i10 Ecosystem - Tech specialisms & partnerships

How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

Hive Mind

Cloud Transformation
