Service Description

Cloud Innovation & Emerging Technologies

Service Definition

Expert advisory and implementation services for cutting-edge technologies including AI/ML, IoT, blockchain and quantum readiness. We deliver proof-of-concepts, innovation labs, experimentation frameworks and production deployments. Our approach combines technical expertise with practical governance, ensuring responsible innovation that delivers citizen value whilst managing risks and maintaining ethical standards for public services.

Features & Benefits

Features

- AI/ML platform deployment and MLOps implementation
- IoT architecture and edge computing solutions
- Blockchain and distributed ledger technology consulting
- Quantum computing readiness assessments and planning
- Digital twin development for infrastructure management
- Computer vision and natural language processing
- Innovation lab setup and experimentation frameworks
- Low-code/no-code platform evaluation and deployment
- Conversational AI and intelligent automation services
- Augmented and virtual reality proof-of-concepts

Benefits

- Accelerate innovation adoption with managed risk
- Improve citizen services through AI automation
- Reduce operational costs by 40% using IoT
- Enable evidence-based policy through predictive analytics
- Future-proof organisation for quantum computing era
- Deliver citizen services 24/7 via chatbots
- Create transparency through blockchain audit trails
- Empower non-technical staff with low-code tools
- Meet government innovation strategy objectives effectively
- Build competitive advantage through early adoption

About Us

About i10

We exist to help clients to be the best they can be.

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

Introductions

Be Your Best

Our consulting engagements are all about outcomes.

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

Almost 20 years

Transforming public sector clients

GDS

User-Centric

We use GDS-aligned techniques

Social Value

Making a real difference to clients and the community

**DD&T
P&P**

End to End Transformation

Covering People, Process, Technology, Data & Digital

Knowledge Transfer

Additional value through coaching & upskilling

Collaborative

Highly transparent, engaging and collaborative approach

i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

i10 Ecosystem - Tech specialisms & partnerships

How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

Hive Mind

Cloud Transformation

User-centric, agile delivery
