Service Description

Cloud Migration & Modernisation

Service Definition

Comprehensive cloud migration service covering assessment, planning, execution and optimisation of workload transitions. We deliver lift-and-shift, re-platforming and re-architecting solutions, including application modernisation, containerisation and data migration. Our proven methodology ensures minimal disruption whilst transforming legacy systems into cloud-native solutions that maximise performance, scalability and cost-efficiency.

Features & Benefits

Features

- Application discovery and cloud readiness assessment
- Migration strategy and detailed roadmap development
- Automated workload migration using proven tools
- Database migration and modernisation services
- Legacy application refactoring and containerisation
- Data centre exit planning and execution
- Post-migration optimisation and performance tuning
- Disaster recovery and business continuity setup
- Migration support and rollback capabilities
- Knowledge transfer and migration playbook creation

Benefits

- Reduce infrastructure costs by up to 40%
- Achieve zero-downtime migration for critical systems
- Accelerate time-to-market for new services
- Improve application performance and user experience
- Enable elastic scalability for demand fluctuations
- Eliminate technical debt from legacy systems
- Enhance security posture with cloud-native controls
- Reduce carbon footprint through efficient infrastructure
- Meet GDS cloud-first mandate requirements
- Future-proof technology estate for innovation

About Us

About i10

We exist to help clients to be the best they can be.

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

Introductions

Be Your Best

Our consulting engagements are all about outcomes.

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

Almost 20 years

Transforming public sector clients

GDS

User-Centric

We use GDS-aligned techniques

Social Value

Making a real difference to clients and the community

**DD&T
P&P**

End to End Transformation

Covering People, Process, Technology, Data & Digital

Knowledge Transfer

Additional value through coaching & upskilling

Collaborative

Highly transparent, engaging and collaborative approach

i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

i10 Ecosystem - Tech specialisms & partnerships

How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

Hive Mind

Cloud Transformation

User-centric, agile delivery

Our services are aligned with:

- GDS Service Manual
- Technology Code of Practice
- HMG Cyber Security Principles
- Gov.uk
- NCSC Cloud Security Principles
- WCAG 2.1AA Accessibility Standards
