Service Description

Cloud Integration & Interoperability Services

Service Definition

Comprehensive integration services connecting cloud, on-premise and legacy systems seamlessly. We deliver API strategies, iPaaS platforms, service mesh architectures and event-driven integration. Our expertise ensures secure data exchange, real-time synchronisation and system interoperability across government departments whilst maintaining security boundaries, enabling digital transformation without disrupting existing critical services.

Features & Benefits

Features

- API strategy, governance and management platform
- Integration Platform as a Service (iPaaS) implementation
- Legacy system integration and modernisation wrappers
- Service mesh architecture for microservices connectivity
- Event streaming and message queue implementation
- Cross-cloud integration and hybrid connectivity
- Identity federation across multiple systems
- B2B/EDI modernisation and partner integration
- Real-time data synchronisation and orchestration
- Multi-supplier integration and governance frameworks

Benefits

- Connect systems 80% faster than traditional methods
- Enable real-time data sharing across departments
- Reduce integration costs by 60% using iPaaS
- Eliminate data silos and duplication issues
- Accelerate digital service delivery by months
- Maintain security boundaries between classified systems
- Enable citizen-centric services through unified data
- Reduce manual data entry by 90%
- Meet government interoperability framework requirements
- Future-proof architecture for emerging technologies

About Us

About i10

We exist to help clients to be the best they can be.

Our ecosystem was established to unleash the power of data, digital and technology to help transform the UK public sector.

Introductions

Be Your Best

Our consulting engagements are all about outcomes.

You may need to improve, transform, digitalise, rationalise, maximise, grow, save, re-design, increase efficiency, become more effective, optimise, reduce risk, re-imagine the business or a function, increase security, improve organisational resilience, leverage cloud or reset your vision, mission, roadmap and/or strategy.

Whatever your outcome, we tailor our approach, using proven techniques and specialist experts to deliver real and lasting solutions to business issues and challenges, helping good clients to become even better.

2006

Almost 20 years

Transforming public sector clients

GDS

User-Centric

We use GDS-aligned techniques

Social Value

Making a real difference to clients and the community

**DD&T
P&P**

End to End Transformation

Covering People, Process, Technology, Data & Digital

Knowledge Transfer

Additional value through coaching & upskilling

Collaborative

Highly transparent, engaging and collaborative approach

i10 Ecosystem Overview

-  We specialise in all aspects of digital, data, technology, people, process and cultural transformation
-  We achieve this by using an ecosystem approach - giving our clients access to the very best experts & specialists (many of whom are SMEs)
-  It's about giving our clients what they need - working to your outcomes, not our own

i10 Ecosystem - Tech specialisms & partnerships

How we like to operate

-  Openly, transparently, collaboratively - we call it 'working out loud'
-  As an extension of your team - working to your ends and outcomes, not our own
-  Transferring knowledge and upskilling throughout - focusing on making a positive and lasting impact

We also offer our **Hive Mind** of experts - drawn from across our ecosystem - to work with you and solve your most complex challenges - in the right way for you. The Hive Mind comprises different expertise depending on the challenge to be solved, and leverages our broad and deep capability and experience in all aspects of transformation: digital, data, technology, people, process, cultural and structural

Hive Mind

Cloud Transformation

User-centric, agile delivery
