

Appspace Space Reservation

Service Definition

Overview

Appspace is a modern workplace platform providing everything you need to manage your people and spaces.

Book rooms, desks, parking spots and other spaces, as well as book in visitors and provide wayfinding, all with ease from a browser or app.

As well as making it easy for your employees and visitors to navigate your spaces, Appspace will also provide insights into space usage, allowing you analyse visitor volumes and space useage.

Appspace integrates with the tools employees already use, so you can confirm room scheduling, desk bookings, and resource reservations via Teams, Slack, Webex, and Workplace from Meta.

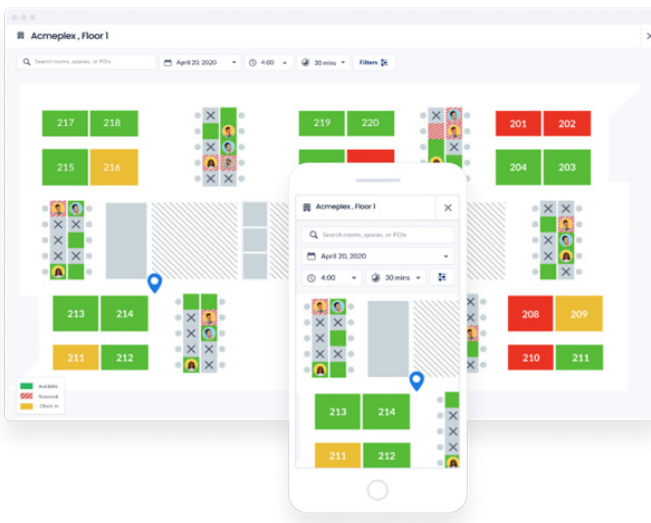

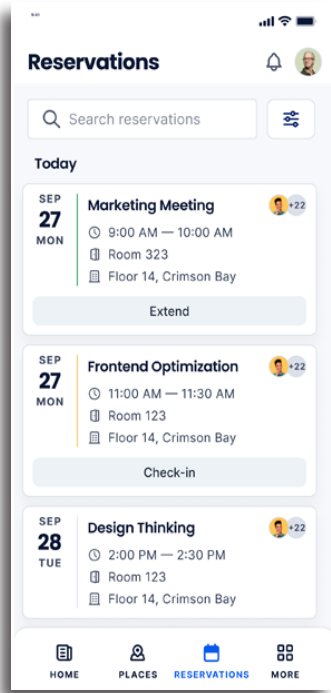

FEATURES

Space Reservation

When the office is the best place to connect, make it easy to book rooms, desks, parking spots, and other spaces. With Appspace, employees can reserve resources on preferred floors, near their team, or somewhere they can focus, with simple space reservation software.

Digital Signage

You bring the hardware. We bring it to life. With Appspace, every TV screen in your workplace is an opportunity to engage employees and visitors. Better yet, Digital Signage is part of our full platform, which means it integrates with your overall workplace experience strategy.

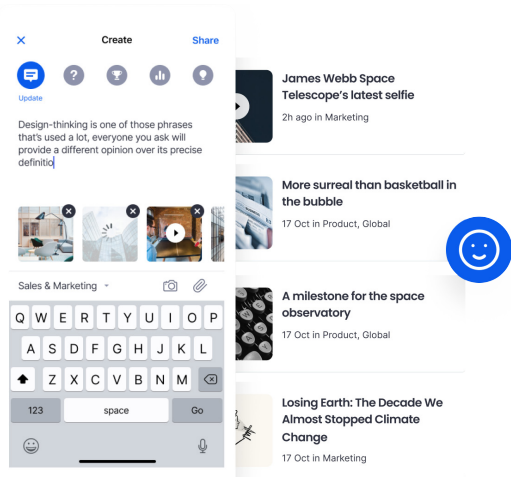

Employee App

Rally your teams with an employee app that doesn't just keep them in the loop, but puts them in control of how they work. With Appspace, employees get quick access to company updates plus the ability to reserve workspaces, like desks, meeting rooms, and even parking spots.

Intranet

Our modern intranet (powered by Beezy) is the intranet of choice for Microsoft users. It gives your employees a streamlined interface that brings together essential Microsoft apps and tools like Teams and Outlook. From relevant company updates to daily task reminders – it's all there, providing an experience that's completely personalized to each user.

BENEFITS

Communications Teams

Easy to edit templates

Appspace Cards are pre-designed HTML templates that make it easy to share any type of information.

Always on-brand

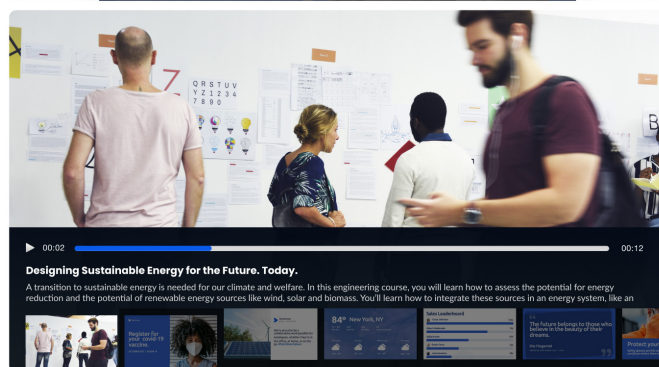

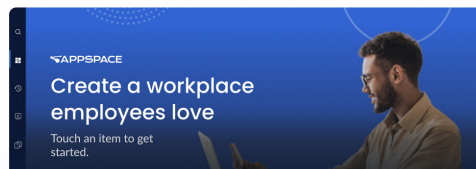

Cards allow you to set fonts, colors, logos, layouts, and more, to ensure all departmental announcements stay on-brand.

Publish once, reach everywhere

Cards are responsive, like a website, to ensure perfect formatting on TVs, computers, phones, and in apps like SharePoint, Teams, and Slack.

Measure your comms

Keep track of how published information is performing and identify successful communications to adapt your strategy.

Workplace Teams

Consolidate your tech

Speed up the rollout of new services with security, legal, and support from a single vendor.

Keep your workplace secure

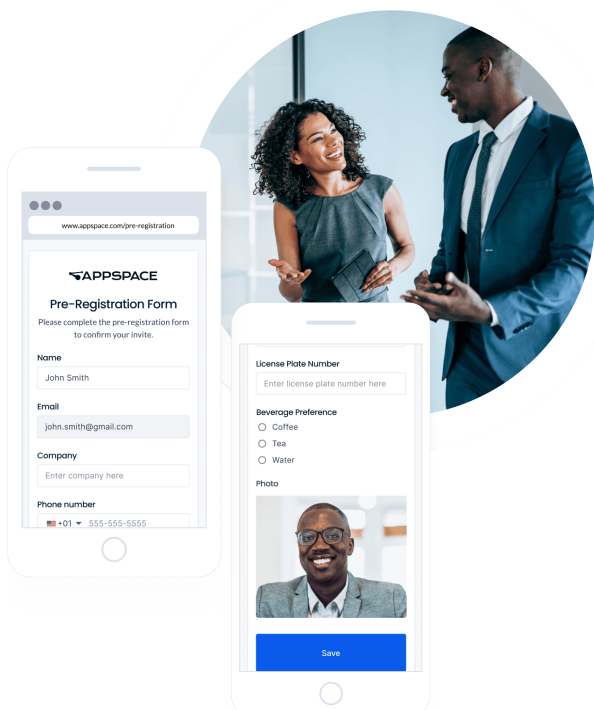

Create a seamless experience for employees and guests with fast check-in and built-in capacity management.

Manage your spaces

Make it simple to reserve desks, rooms, and more, while adhering to capacity planning rules.

Gather insights

Gain insight into visitor volume and analyze behaviors of individual buildings, visitors, and hosts.

Frontline Workers

Provide an information hub

Clear and timely communication helps reduce time loss or confusion and drives greater employee satisfaction and an incident-free workplace.

Manage global and local needs

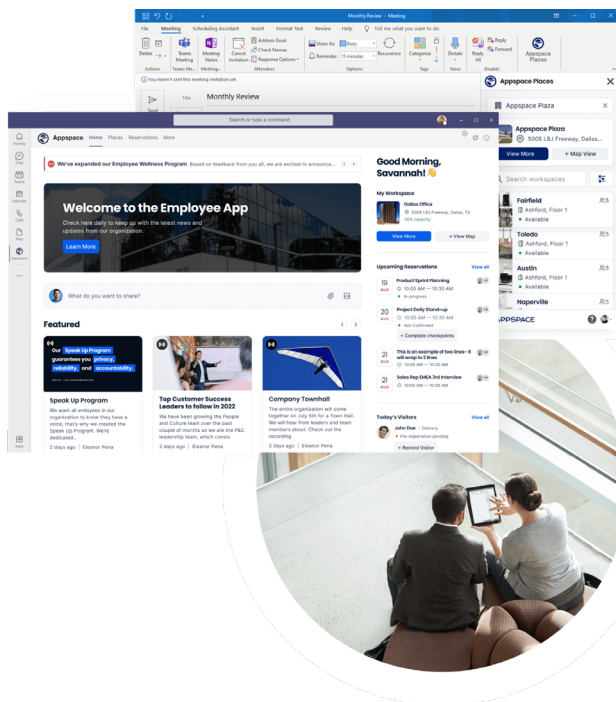

Overcome communication gaps and regional nuances with localized channels, settings, and preferences.

Boost self-service options

Offer self-service access to training videos, directories, and wayfinding through kiosks and the Employee App.

Target your content

Our team of content experts tracks the compliance needs of a dozen industries to design and curate content that tackles hot topics in workplace safety, performance, and corporate culture.

Forklift Safety

SAFETY TIP

Always secure loads.
Unsecured loads may fall crushing pedestrians or drivers.

1 of 10

Employees should have eyewear that fits properly and designed for the specific hazard.

Corporate Workers

Integrate with existing tools

Appspace works with Microsoft Teams, Slack, and many other software and hardware tools you use every day, so there's no need to install a new app.

Be hybrid-work ready

Communications find employees in the office, at home, and on the go, so everyone's informed about the latest news.

Simplify space reservation

Make it simple to book rooms, desks, spaces, and more, while adhering to capacity planning rules.

Keep your office secure

Create a seamless experience for employees and guests with fast check-in and built-in capacity management.

IT & AV Teams

Stay secure and compliant

Appspace uses the encryption and network security best practices you'd expect, as well as being SOC-II, ISO27001, ISO27017, STAR, and GDPR compliant.

Scale with reliability

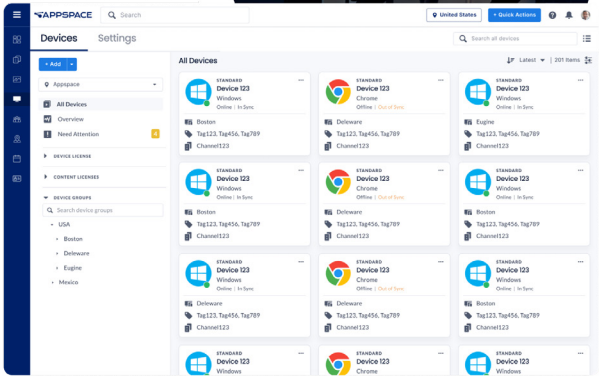

From a single device or user to thousands, our cloud-first architecture is built to just work every time.

Flex to fit your needs

Choose from multi-tenant, single-tenant, on-prem, or a hybrid deployment to suit your enterprise needs.

Integrate with existing tools

Appspace works with your tech stack, thanks to an agnostic app and pre-built integrations.

Integrations

Get more from your technology investments

Appspace works with Microsoft Teams, Slack, and many other software and hardware tools you use every day, so there's no need to install a new app.
