Cloud & Enterprise Solution Architecture Assurance

Independent, vendor-neutral cloud and solution architecture assurance for enterprise and corporate digital platforms, supporting risk reduction, resilience and standards compliance.

Features

- Architecture reviews and validation
- Security, resilience and scalability assurance
- Vendor-neutral design assessments

Benefits

- Reduces delivery risk through independent assurance
- Ensures alignment with public sector standards
- Provides vendor-neutral architectural advice
- Identifies scalability and integration risks early
- Improves resilience and performance of solutions

Included

- Architecture assurance findings and recommendations

Not included

- Hosting, licensing or operational IT services
