Service

Provision of the cloud-based “Pre-Award” software solution for research grants and funding application management, with user support and ongoing maintenance and updates to the software.

Pricing

Annual Licence

The annual licence fee of the Pre-Award module is £50,000.

Licence fee includes:

- Provision of live and test environments
- Hosting, data back-up, disaster recovery and business continuity services
- Implementation delivery (up to a maximum of 10 days)
- Service & Support Desk
- Single sign-on
- API
- Ongoing system maintenance
- Software and new feature updates
- End of contract data extraction

Additional Support Options

Expert **pre-implementation support** is available where customers require facilitation to map, identify efficiencies or improvements and document Pre-Award processes, suitable and configurable for multiple faculties and departments, to inform configuration of their instance of the software.

This is charged at £1,800 per day and the total cost is dependent on the services required by the customer.

Onboarding support includes:

- Training and support for system administrators
- User documentation
- Data migration
- Internal communications process and content support to help embed the new system across the institution/organisation
- Additional implementation days over the 10 days included in the licence fee where requested/agreed

This is charged at £1,100 per day and the total cost is dependent on the services required by the customer.
