

Power Platform Adoption Centre of Excellence

Build a Power Platform Centre of Excellence (CoE) with us, designed to drive innovation and improvement across your organisation.

Improve understanding of Power Platform by building a network of Power Platform Champions. We also offer in-depth workshops to help drive usage.

The Power Platform adoption service could include:

-  In depth learning workshops on Power Platform and how to use it to meet key business challenges.
-  Coaching to help you build a dedicated network of Power Platform Champions
-  Engaging masterclasses and drop-in sessions to enhance understanding and internal capability of the Power Platform
-  A sustainable and supported Centre of Excellence community to achieve business goals
