

Microsoft Surface Rollout

[Watch the video](#)

A new device should be exciting for your staff, not something they dread. Don't just deliver new devices; deliver an experience.

With an engaging comms campaign, eye-catching design assets and an informative learning programme, Hable ensures you give people that 'new device' feeling.

A new device rollout from Hable may include:

- ✓ An engaging comms campaign to raise awareness of new devices available and help people choose the right device
- ✓ Device orientation workshops to get your people set up fast and ready to go
- ✓ Engaging learning programmes to ensure understanding of both the new device and the software on it
- ✓ Printed assets in the box to provide staff with a positive experience right from the start
- ✓ Video guides or animations to explain the set-up process in simple, easy-to-follow steps
