

Agentic AI / Copilot Studio Learning Programme

This tool will be brand new to most staff – inspire them to use it well!

Empower your teams with the skills they need to build their own Copilot Agents using Copilot Studio. Inspire them about what's possible with agentic AI, from streamlining everyday tasks to redesigning entire workflows. And give them the confidence to create, customise, and responsibly deploy AI their own agents.

As part of a Copilot Studio Learning Programme we will:

- ✓ Generate **personal Copilot 'profiles'** for members of staff, delivered via **Adaptive Cards** in Microsoft Teams
- ✓ Use these insights gained to **suggest areas that could benefit from bespoke Copilot Agents**, built in Copilot Studio
- ✓ Deliver an engaging learning programme to empower your staff to build agents with Copilot Studio
- ✓ Craft a **compelling internal comms campaign** to drive sign ups and share the benefits of Copilot Studio

A learning programme may cover:

- What is Agentic AI?
- An introduction to Copilot Studio and Copilot Agents
- Agentic AI use cases
- How to build your own agents
