

G-CLOUD 15

Firewall as a service (FWaaS - FortiGate)

Firewall as a service (FWaaS- FortiGate)

FortiGate is a cloud-based offering that provides firewall functionality to organisations without the need for on-premises hardware. With FWaaS, the firewall functions are delivered as a service over the internet, allowing organisations to leverage robust security features without the overhead of managing physical firewall appliances.

Benefits include

- Comprehensive network security, multi-layered defense against threats.
- Secure SD-WAN, optimised WAN performance, branch networking.
- High performance, scalability, maximum uptime through clustering.
- Centralised visibility, control, security orchestration, and automation.
- Simplified management, lower TCO through consolidation.
- Compliance support, regulatory adherence, granular controls.
- Industry-leading solutions, continuous innovation, future-proof security
- The service is supported by FortiGuard Lab's Global Threat Intelligence

Firewall as a service (FortiGate)

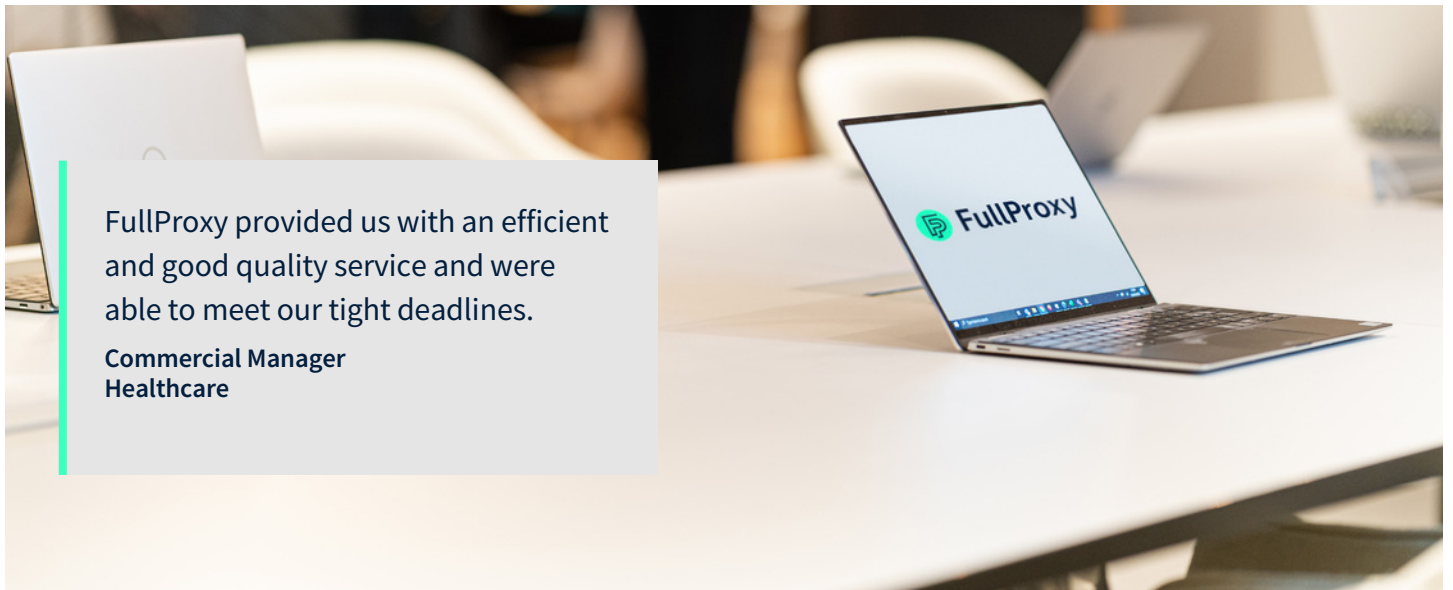

FortiGate is a cloud-based offering that provides firewall functionality to organisations without the need for on-premises hardware.

Advanced packet filtering and application control
Implement access control policies by allowing or denying traffic based on the source or destination.

Sandboxing for advanced threat analysis
Analyze the behavior for potential threats before allowing them into the production environment, providing an advanced level of threat protection.

Layer 7 protection including URL and DNS filtering
Enable granular control over web traffic, blocking malware and attacks, enforcing content filtering policies, and ensuring regulatory compliance.

Your Cyber Security Specialists

FullProxy provided us with an efficient and good quality service and were able to meet our tight deadlines.

**Commercial Manager
Healthcare**

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
- Networking (Network as-a-service and SD-WAN)

Software as-a-service

- AI Delivery and Security (F5)
- AppViewX - Certificate Management
- AppViewX PKI
- AppViewX PQC
- Authentication Software (FortiAuthenticator, FortiToken)
- AWS Marketplace
- AWS Marketplace - F5
- Bot Defense (F5)
- Cloud Services
- Cloudflare
- Content Delivery Network (F5 Distributed Cloud)
- DDoS Mitigation - F5
- DDoS Protection
- Endpoint security (FortiClient & EMS)
- F5 Distributed Cloud API Security
- F5 Distributed Cloud - Client-side Defense
- Firewall as-a-service (Fortigate)
- FortiManager
- Infrastructure and Platform security
- Load Balancing
- Log Management
- NIOS-X as-a-service (Infoblox)
- Pen Testing - Application Security
- Proactive Monitoring
- Security as-a-service (FortiCloud)
- WAF - Application Security
- ZDX (Zscaler)
- ZIA (Zscaler)
- ZPA (Zscaler)
- Zscaler Services
