ZIA (Zscaler Internet Access)

ZIA (Zscaler Internet Access)

FullProxy's Zscaler Internet Access (ZIA) service provides secure, high-performance access to the internet and SaaS applications for every user and device, regardless of location. Built on a cloud-native Secure Service Edge (SSE) architecture, ZIA delivers AI-driven protection while enabling fast, reliable access to cloud services.

Using Zero Trust principles, ZIA inspects 100% of traffic—encrypted and unencrypted—to block advanced cyber threats, prevent data loss, and ensure secure access without compromising user experience. By removing reliance on legacy, firewall-based architectures, organisations can reduce complexity while improving both security and performance. FullProxy's accredited Zscaler specialists design, deploy, and manage ZIA solutions tailored to your environment, ensuring maximum protection, operational efficiency, and return on investment.

Benefits include:

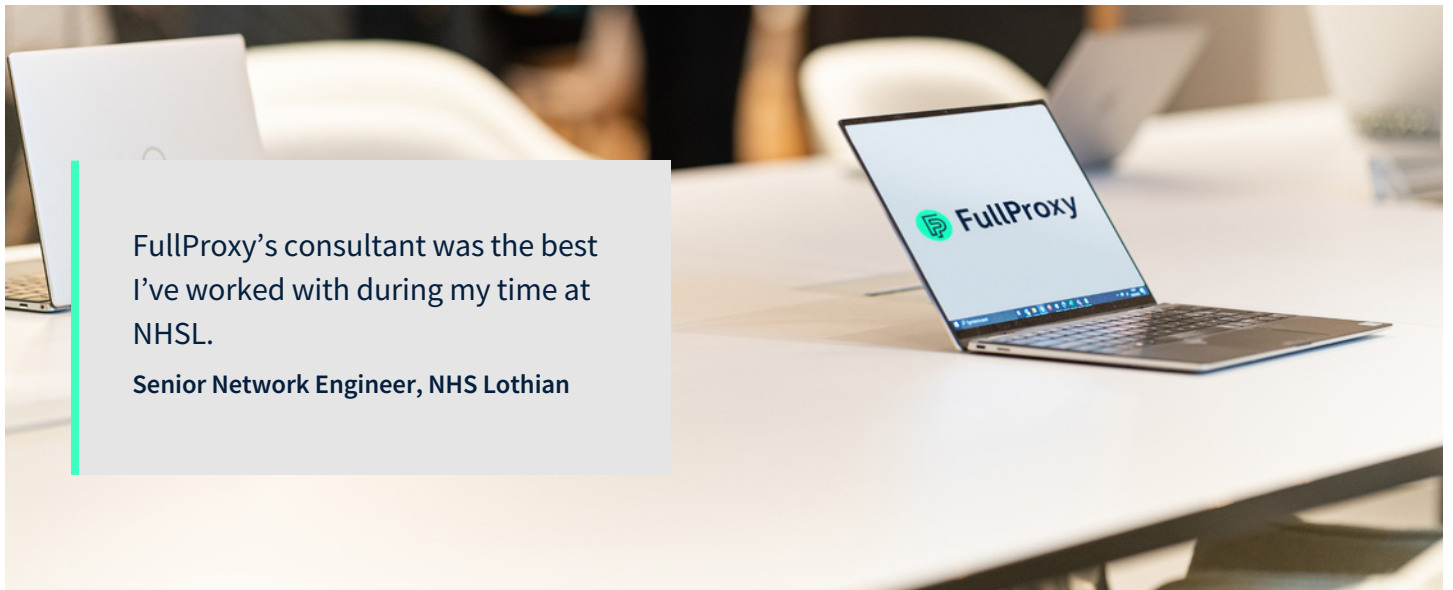

- Secure internet and SaaS access for users in any location.
- Reduced attack surface through Zero Trust, identity-based access.
- Elimination of legacy on-premises security appliances.
- Improved performance through direct-to-cloud connectivity.
- Advanced protection against ransomware, malware, and zero-day threats.
- Comprehensive data protection across users, SaaS, and cloud platforms.
- Scalable architecture that grows with your organisation.

ZIA (Zscaler Internet Access) features:

- Cloud-native Secure Service Edge (SSE) architecture.
- Full TLS/SSL inspection of all traffic.
- AI-driven threat detection and prevention.
- Integrated Data Loss Prevention (DLP) and CASB capabilities.
- Identity- and context-based policy enforcement.
- Seamless integration with SOC and security tooling.
- Consistent security policies across on-network and remote users.
- Centralised visibility, reporting, and control.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
- Networking (Network as-a-service and SD-WAN)

Software as-a-service

- AI Delivery and Security (F5)
- AppViewX - Certificate Management
- AppViewX PKI
- AppViewX PQC
- Authentication Software (FortiAuthenticator, FortiToken)
- AWS Marketplace
- AWS Marketplace - F5
- Bot Defense (F5)
- Cloud Services
- Cloudflare
- Content Delivery Network (F5 Distributed Cloud)
- DDoS Mitigation - F5
- DDoS Protection
- Endpoint security (FortiClient & EMS)
- F5 Distributed Cloud API Security
- F5 Distributed Cloud - Client-side Defense
- Firewall as-a-service (Fortigate)
- FortiManager
- Infrastructure and Platform security
- Load Balancing
- Log Management
- NIOS-X as-a-service (Infoblox)
- Pen Testing - Application Security
- Proactive Monitoring
- Security as-a-service (FortiCloud)
- WAF - Application Security
- ZDX (Zscaler)
- ZIA (Zscaler)
- ZPA (Zscaler)
- Zscaler Services
