Private PKI as-a-service (AppViewX)

Private PKI as-a-service (AppViewX)

FullProxy's AppViewX AVX ONE PKIaaS provides a secure, scalable, and compliant Private PKI-as-a-Service solution, enabling organisations to modernise and migrate on-premises private certificate authorities (CAs) to an enterprise-grade, cloud-based PKI.

Designed to support a wide range of private trust use cases, AVX ONE PKIaaS simplifies PKI operations while maintaining strong security controls and compliance. By removing the complexity and risk associated with managing on-prem PKI infrastructure, organisations gain greater resilience, visibility, and control over their cryptographic assets.

FullProxy designs, implements, and supports AVX ONE PKIaaS to ensure it integrates seamlessly with your wider security and infrastructure strategy.

Benefits include:

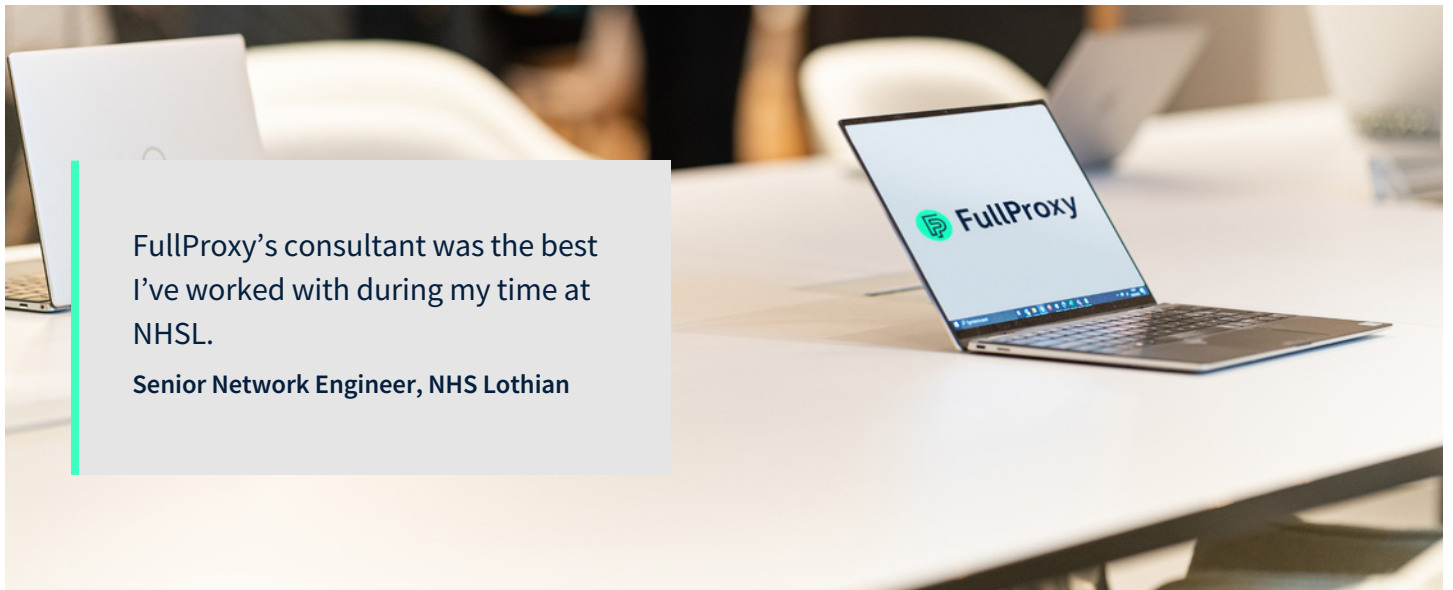

- Elimination of on-premises PKI hardware and infrastructure.
- Reduced operational costs through a fully managed PKI service.
- Secure, policy-driven management of private certificates.
- Automated scalability to support DevOps, IoT, and multicloud environments.
- Improved resilience and reduced risk of certificate-related outages.
- Simplified migration from legacy on-prem PKI platforms.
- Enhanced security posture with enterprise-grade controls.

Private PKI as-a-service features:

- Fully managed Private PKI delivered as a service.
- Secure cloud-based hosting of private certificate authorities.
- FIPS 140-2 Level 3 Hardware Security Modules (HSMs).
- Centralised policy enforcement and governance.
- Automated certificate issuance, renewal, and revocation.
- Seamless integration with enterprise platforms, APIs, and DevOps pipelines.
- Role-based access control and audit logging.
- High availability and scalable architecture.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.
