

G-CLOUD 15

F5 Distributed Cloud API Security

F5 Distributed Cloud API Security

F5 Distributed Cloud API Security is a solution designed to protect your APIs across multi-cloud and edge environments. It provides security, traffic management, and analytics capabilities, ensuring the secure and reliable delivery of your APIs to customers, partners, and internal applications.

Benefits include

- Manage APIs across multiple cloud providers and edge locations
- Centralised platforms to secure and manage APIs
- Protect APIs from threats such as, DDoS attacks
- High availability and scalability
- Handle fluctuating traffic volumes and spikes without comprising performance
- Meet Industry standards such as GDPR and PCI-DSS
- Integrate seamlessly with your existing infrastructure

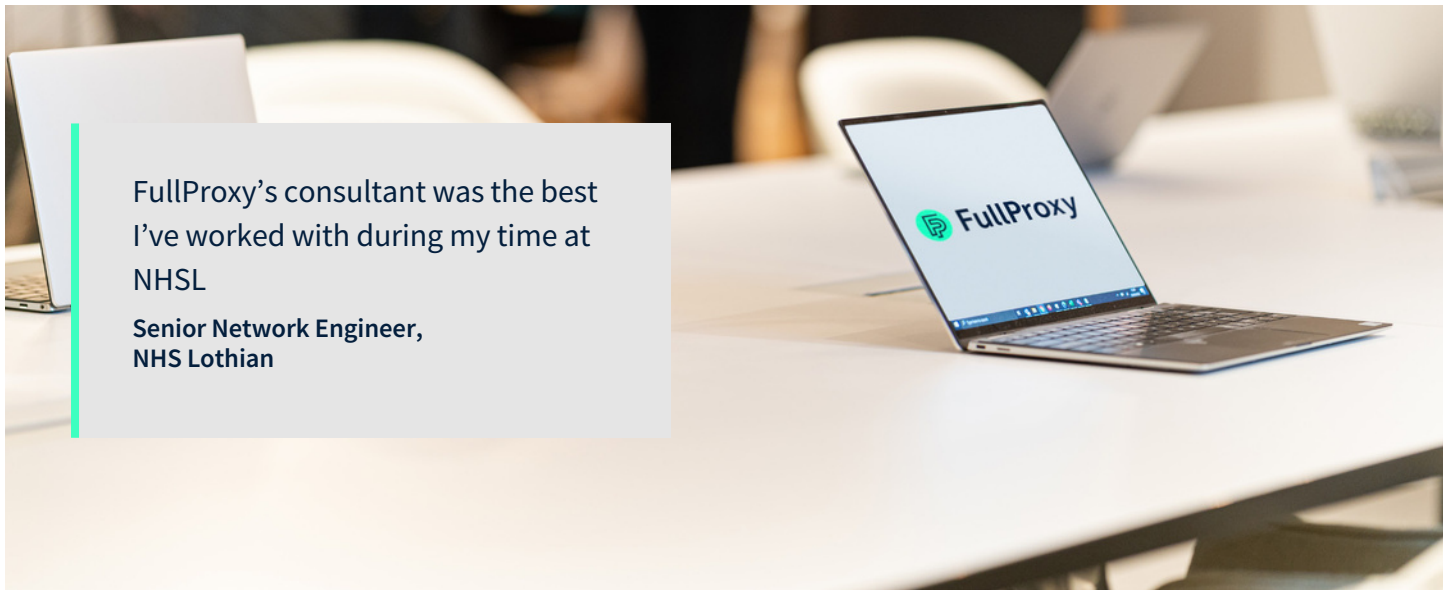

Distributed Denial of Service attack (DDoS) protection Features

F5 Distributed Cloud API Security is a solution designed to protect your APIs across multi-cloud and edge environments. It provides security, traffic management, and analytics capabilities, ensuring the secure and reliable delivery of your APIs to customers, partners, and internal applications.

Service features

- Service features
- Automatically discover and catalog APIs across your distributed environments
- Implement granular access control policies based on various criteria
- Detect and mitigate threats, such as SQL injections prevents abuse, DDoS, ensures fair resource allocation
- Validate incoming and outgoing API requests and responses
- Monitor and log API traffic in real-time across distributed environments
- API analytics via customisable dashboards for insights and metrics
- Comprehensive API lifecycle management from dev to retirement
- Deploy and manage API security policies across multiple cloud providers
- Deploy API security closer to the end

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL

**Senior Network Engineer,
NHS Lothian**

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
- Networking (Network as-a-service and SD-WAN)

Software as-a-service

- AI Delivery and Security (F5)
- AppViewX - Certificate Management
- AppViewX PKI
- AppViewX PQC
- Authentication Software (FortiAuthenticator, FortiToken)
