

G-CLOUD 15

AI Application Delivery & Security (F5)

AI Application Delivery & Security (F5)

With decades of expertise in application delivery and security, and strong technology alliance partnerships, F5 enables organisations to run AI workflows that are resilient, high-performing, and secure by design.

The F5 Application Delivery and Security Platform helps organisations accelerate AI initiatives while reducing operational complexity and risk. By integrating high-performance AI traffic delivery, robust AI model security, and seamless multicloud orchestration into a single unified platform, enterprises can rapidly operationalise secure, scalable, AI-driven applications across hybrid and multicloud environments.

FullProxy works with organisations to design and implement F5 solutions that support AI workloads end to end, from data ingestion and model training through to inference, runtime security, and multicloud connectivity.

Benefits include:

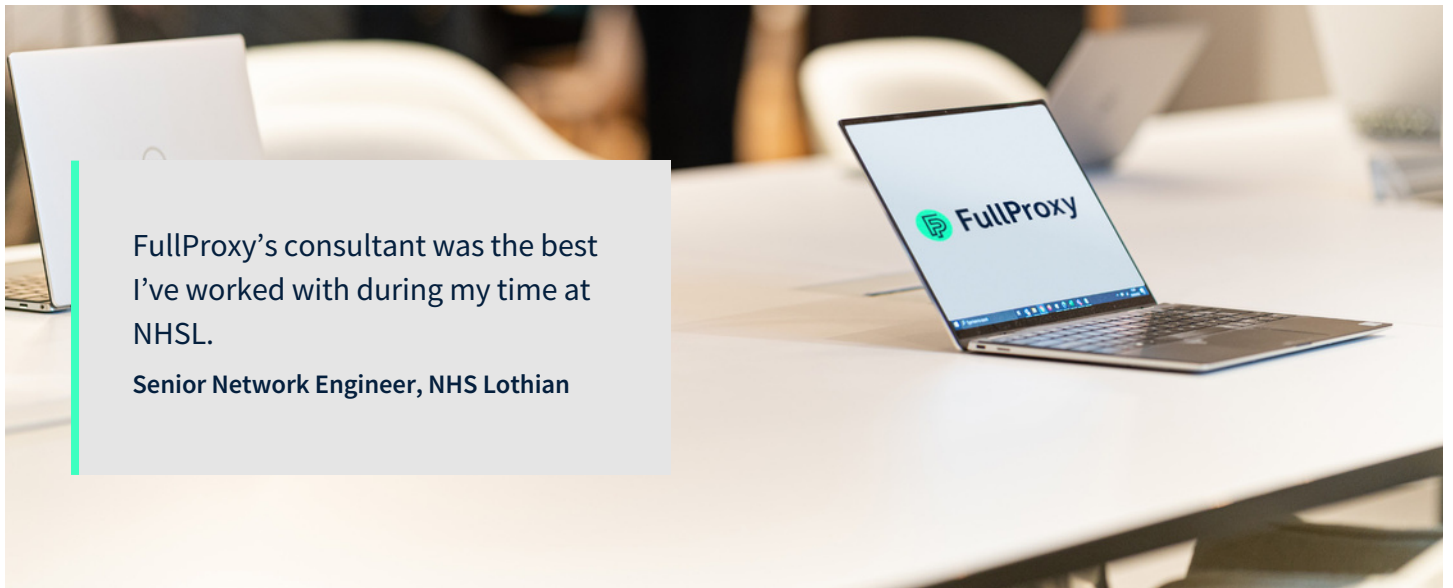

- Accelerated deployment of secure, enterprise-grade AI applications.
- High-performance delivery for AI training, inference, and RAG workflows.
- Reduced operational overhead through unified traffic management and security.
- Protection of AI models, APIs, and data from evolving threats.
- Optimised performance and utilisation of GPU and compute resources.
- Secure, compliant operations across hybrid and multicloud environments.
- Improved visibility and control across the entire AI application pipeline.

AI Application Delivery & Security features:

- High-performance AI data delivery for model training and inference.
- Secure front-door access for AI services using F5 BIG-IP and NGINX.
- AI factory load balancing to maximise GPU utilisation and reduce latency.
- Runtime protection for AI applications, APIs, models, and data.
- Centralised orchestration of AI traffic across hybrid and multicloud estates.
- Inline inspection to prevent data leakage and unauthorised access.
- Scalable, resilient networking for distributed AI infrastructures.
- Support for compliance, governance, and security best practices.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
- Networking (Network as-a-service and SD-WAN)

Software as-a-service

- AI Delivery and Security (F5)
- AppViewX - Certificate Management
- AppViewX PKI
- AppViewX PQC
- Authentication Software (FortiAuthenticator, FortiToken)
- AWS Marketplace
- AWS Marketplace - F5
- Bot Defense (F5)
- Cloud Services
- Cloudflare
- Content Delivery Network (F5 Distributed Cloud)
- DDoS Mitigation - F5
- DDoS Protection
- Endpoint security (FortiClient & EMS)
- F5 Distributed Cloud API Security
- F5 Distributed Cloud - Client-side Defense
- Firewall as-a-service (Fortigate)
- FortiManager
- Infrastructure and Platform security
- Load Balancing
- Log Management
- NIOS-X as-a-service (Infoblox)
- Pen Testing - Application Security
- Proactive Monitoring
- Security as-a-service (FortiCloud)
- WAF - Application Security
- ZDX (Zscaler)
- ZIA (Zscaler)
- ZPA (Zscaler)
- Zscaler Services

Cloud Support

- Certificate Management Consultancy
- Cloud Migration Planning
- Cyber Health Check
- Cyber Security Professional Services
- F5 Consultancy
- Fortinet Consultancy
- Managed Services
- Web Application Security consultancy
- Zero Trust Consultancy
