

G-CLOUD 15

Networking

INetworking as a
Service and SD-WAN

Networking | Networking as a Service and SD-WAN

FullProxy's Cloud networking service provides a comprehensive suite of virtual networking capabilities, enabling your organisation to build high-performance, secure, and scalable cloud networks that seamlessly integrate with your on-premises infrastructure.

Our highly skilled, experienced consultants understand the complexities of Public Sector Cyber Security. When a solution is needed or there's a security issue that needs resolving quickly, they can work as an extension of your own IT department, bringing the specialised skillset you need to your team.

Benefits of the service include:

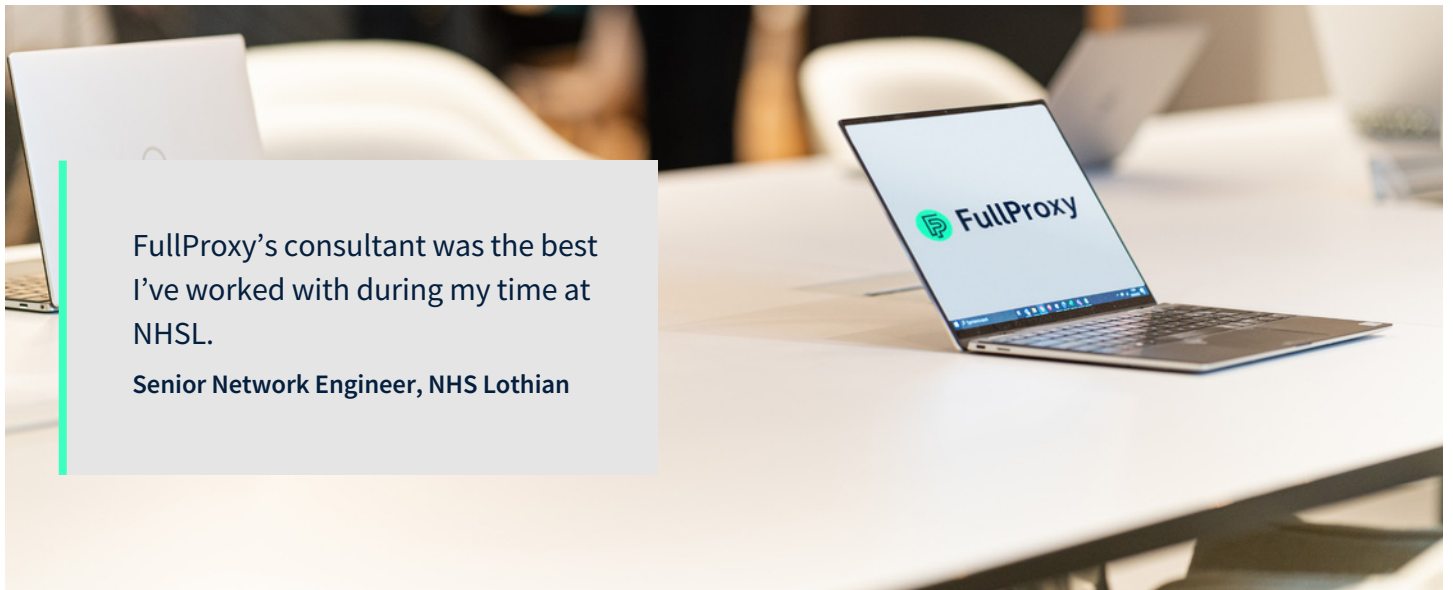

- Monitor for updates and security patches
- Flexibility to pay for services based on usage
- Rapid, on-demand networking resource provisioning and scaling
- Secure networks across cloud regions and on-premises
- Resilient architectures with failover and load balancing
- Security controls and compliance capabilities
- Pay as you go with auto scaling network capacity

Networking & Networking as a Service Features

- Isolated virtual networks with user-defined IP ranges.
- Self-service virtual networking resource provisioning and management.
- SD-WAN- Intelligent cloud connectivity optimisation and path selection.
- Intelligent cloud connectivity optimisation and path selection.
- Distribute traffic across instances for availability/performance.
- Secure, encrypted on-prem to cloud network connections.
- Virtual firewalls, IPS, DDoS protection, access controls.
- Traffic Monitoring/ Analytics. Visibility into network traffic flows and metrics.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
