

G-CLOUD 15

Distributed Denial of Service attack (DDoS) protection

Distributed Denial of Service attack (DDoS) protection

DDoS attacks involve flooding a target system or network with large volumes of traffic from multiple sources, with the goal of overwhelming the target's resources and disrupt normal operation. DDoS protection mechanisms detect and mitigate the impact of DDoS attacks, ensuring that targeted systems and services remain accessible and operational.

Benefits include

- Maintained service availability
- Improved service performance
- Enhanced security posture
- Protection of revenue and reputation
- Compliance assurance
- Cost savings
- Scalability and flexibility
- Helps organizations mitigate the risks and consequences of DDoS attacks

Distributed Denial of Service attack (DDoS) protection Features

Service features

- Monitor incoming traffic to detect signs of a DDoS attack
- Traffic scrubbing
- Rate limiting
- Traffic shaping
- Anomaly detection
- Geolocation filtering
- On-prem and cloud-based deployment protection models

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL

**Senior Network Engineer,
NHS Lothian**

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service

- F5 BIG-IP Virtual Edition, Standalone/ELA/Subscription
- Networking (Network as-a-service and SD-WAN)

Software as-a-service

- AI Delivery and Security (F5)
- AppViewX - Certificate Management
- AppViewX PKI
- AppViewX PQC
- Authentication Software (FortiAuthenticator, FortiToken)
- AWS Marketplace
- AWS Marketplace - F5
- Bot Defense (F5)
