Zscaler Consultancy

Zscaler Consultancy

FullProxy's Managed Zscaler Services help organisations build a robust Zero Trust framework and cloud-first security strategy. Our expert technical consultants are fully accredited Zscaler specialists, supporting organisations across cloud security, secure web access, and modern remote working.

Whether you're addressing the challenges of hybrid work, improving web filtering, or replacing legacy network security models, we provide the expertise needed to design, deploy, and manage Zscaler solutions effectively.

As a trusted Zscaler partner, we work with both private and public sector organisations, acting as an extension of your IT and security teams to ensure your Zero Trust journey delivers measurable security and operational benefits.

Benefits of the service include:

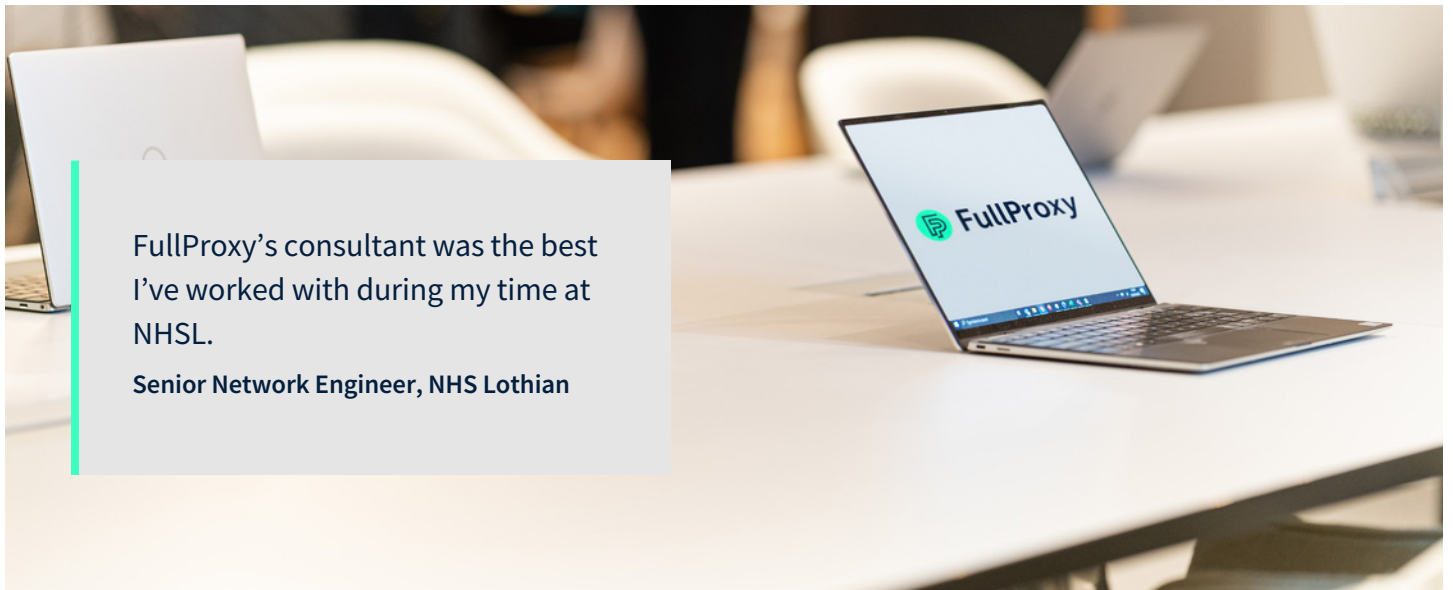

- Expert design, deployment, and management of Zscaler platforms.
- Support for cloud-first and Zero Trust security strategies.
- Consistent security controls across on-prem, cloud, and remote users.
- Reduced complexity when securing hybrid working environments.
- Improved security posture aligned with Zero Trust and "Never Trust" principles.
- Ongoing technical support from accredited Zscaler specialists.
- Scalable solutions tailored to enterprise and public sector needs.

Zscaler Features

- Consistent remote access protection across on-prem, cloud, and remote users.
- Inline inspection, SSL decryption, and Data Loss Prevention (DLP).
- Identity-based access with no direct corporate network exposure.
- Minimise attack surface by hiding applications from the internet.
- Proxy-based traffic routing for low latency and high performance.
- Secure access for users, devices, IoT, and OT environments.
- Centralised policy management and reporting.
- Support for Zero Trust Exchange architecture.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.
