

G-CLOUD 15

AWS Marketplace

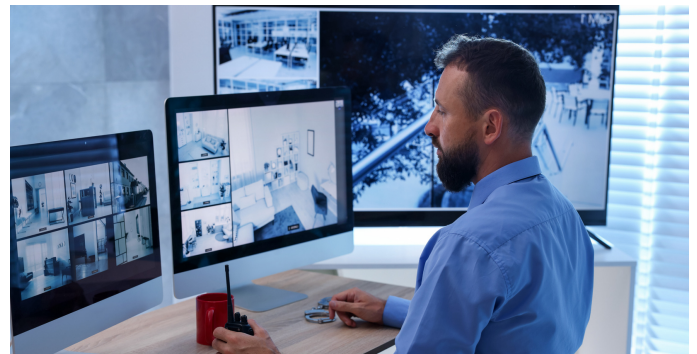

AWS Marketplace

AWS Marketplace is a curated digital catalog that makes it easy for customers to find, buy, and quickly deploy third-party software and services to build solutions on Amazon Web Services (AWS). With AWS Marketplace, you can streamline your software procurement process, reduce costs, and benefit from flexible pricing models.

Benefits include

- Discover, purchase, migrate and start using software and services
- Launch pre-configured software in minutes
- AWS billing, including software charges for 3rd party
- Service (SaaS)
- API integration
- 1-Click deployment to quickly launch pre-configured software
- Pay only for usage, by the hour or month.
- Access to commercial and free IT and business software.
- Software includes software infrastructure, developer tools, business applications.
- Many open source offerings available
- Categories include databases, application-servers, testing, monitoring and business intelligence.

AWS Marketplace Features

AWS Marketplace is a digital catalog that simplifies finding, purchasing, and deploying third-party software and services on AWS. It streamlines software procurement, reduces costs, and offers flexible pricing models.

Launch pre-configured software

AWS Marketplace allows you to launch pre-configured software in minutes, accelerating your solution deployment.

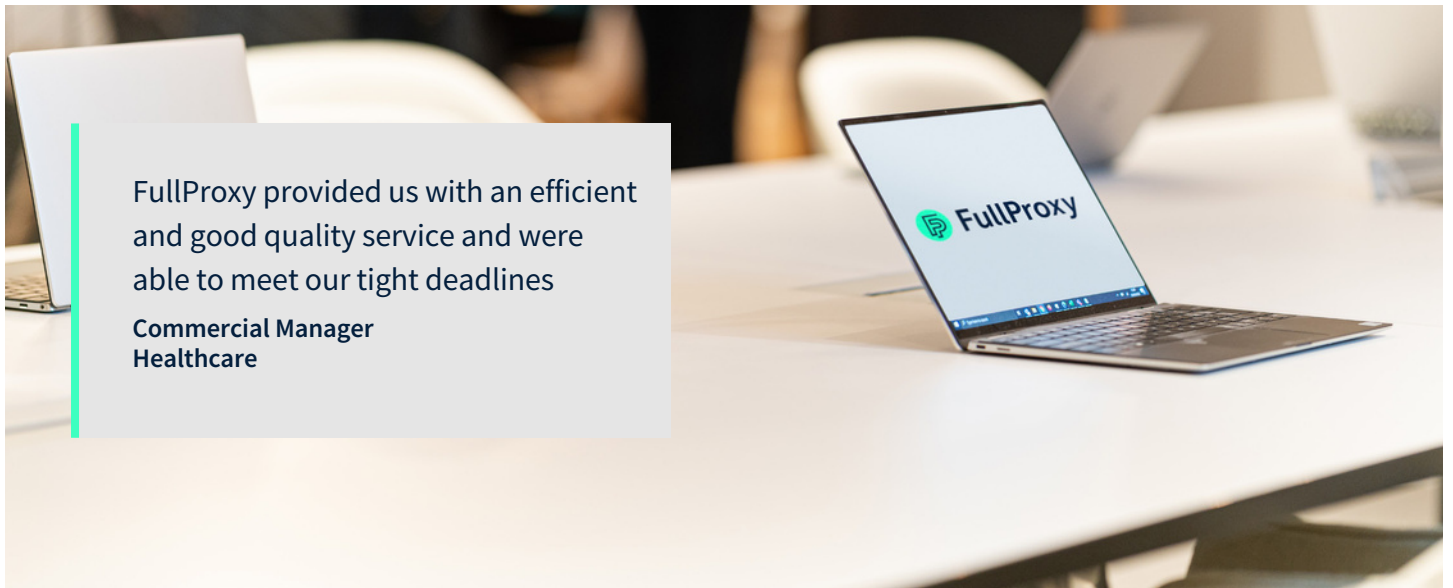

Open source offerings available

AWS Marketplace offers easy access to open source offerings, enabling seamless integration of open source tools into your solutions.

A wide range of categories

AWS Marketplace offers a wide range of categories including databases, application servers, testing tools, monitoring solutions, and business intelligence software.

Your Cyber Security Specialists

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service
