Web Application Security Consultancy

Web application security consultancy

Expertise, guidance, and support for organizations seeking to mitigate security risks and maintain a secure and resilient web application environment, whilst ensuring the confidentiality, integrity, and availability of sensitive data and resources.

Benefits include

- Customised security solutions
- Expert guidance and best practices
- Improved security posture
- Optimised performance and efficiency
- Enhanced threat detection and response
- Compliance and regulatory alignment
- Cost optimization
- Proactive support and monitoring
- Training and skill development

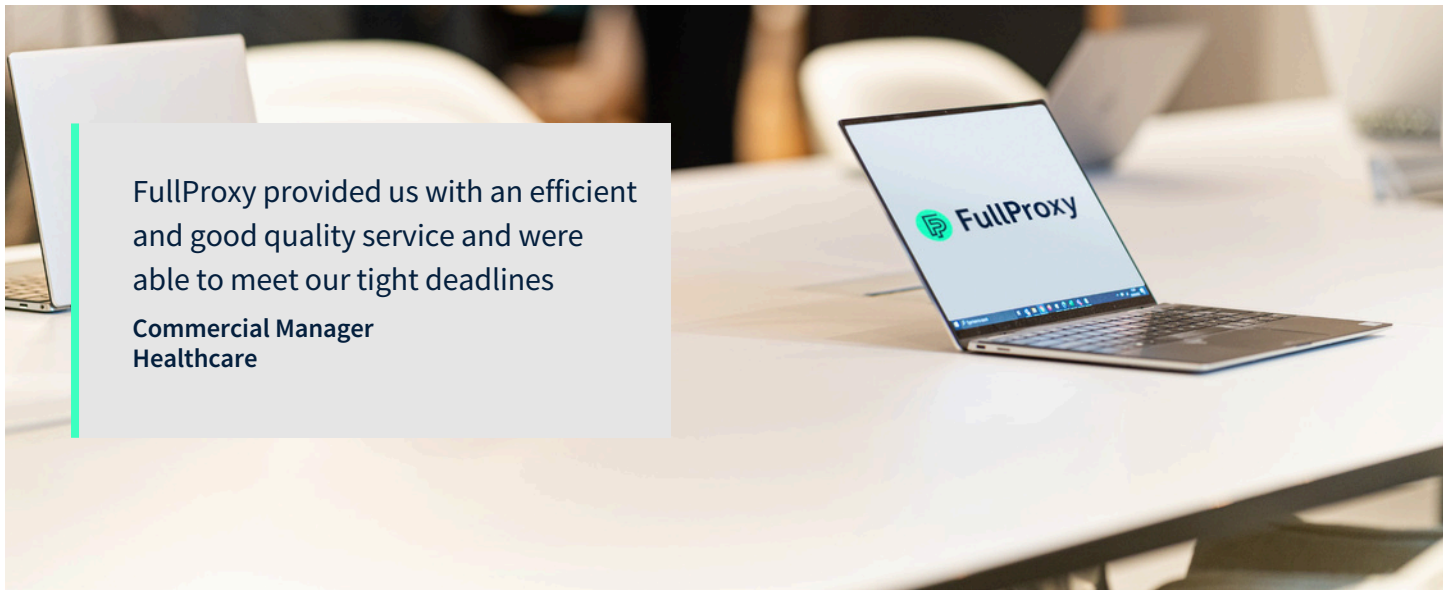

Expertise, guidance, and support for organisations seeking to mitigate security risks and maintain a secure and resilient web application environment, whilst ensuring the confidentiality, integrity, and availability of sensitive data and resources.

Our web application security consultancy services include:

- Web application assessments to identify security risks and vulnerabilities
- Design security architectures and controls to protect web applications
- Perform security testing and validate the effectiveness of security controls
- Evaluate, select, and implement security tools and technologies
- Provide security awareness training and guidance to stakeholders
- Lead incident response efforts to contain, investigate, and remediate incidents
- Ensure that web applications comply with security standards and regulations
- Promote continuous improvement in cyber security posture

Your Cyber Security Specialists

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.
