

G-CLOUD 15

Infrastructure & Platform Security (Fortinet)

Infrastructure & Platform Security

FullProxy's Infrastructure and Platform Security service provides comprehensive security capabilities to protect your cloud infrastructure, platforms, workloads from threats and malicious bots across your full application stack and life cycle.

Our highly skilled, experienced consultants understand the complexities of Public Sector Cyber Security. When a solution is needed or there's a security issue that needs resolving quickly, they can work as an extension of your own IT department, bringing the specialised skillset you need to your team.

Benefits of the service include:

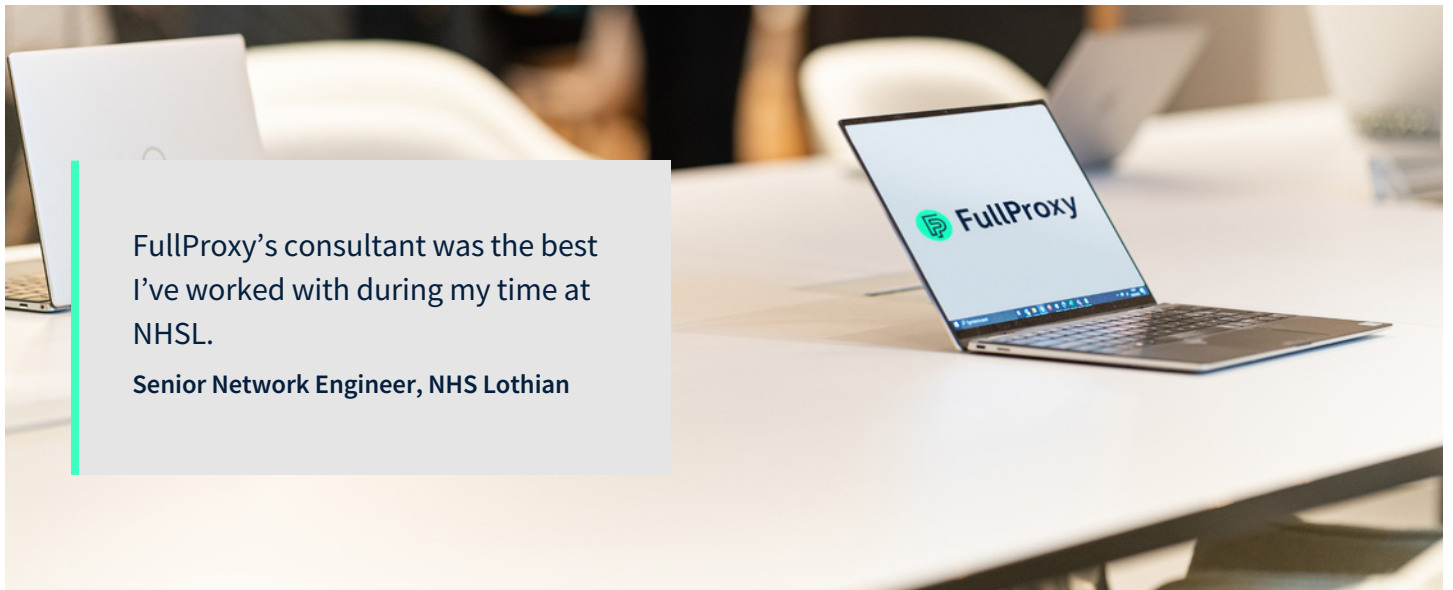

- Defences across VMs, containers, apps, data, networks.
- Align with compliance standards across clouds.
- Automated security management and enforcement at scale.
- Integrated with cloud infrastructure and services
- Unified visibility, control, advanced threat protection across cloud.
- Partnering on cloud/customer resource security

Infrastructure & Platform Security Features

- VM firewalls, endpoint protection, file integrity monitoring.
- Vulnerability scanning, admission control, runtime container defense.
- Secure CI/CD pipelines, code scanning, registry protection.
- Assess and remediate cloud misconfigurations and compliance.
- Application control, system hardening, runtime threat detection.
- Centralised identity management, granular permissions control.
- VPCs, firewalls, IPS/IDS, DDoS mitigation.
- Encryption, key management, data loss prevention
- Centralised visibility, analytics, automated incident response.

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL.

Senior Network Engineer, NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.

G-Cloud Service Directory

Infrastructure Software as-a-service
