

G-CLOUD 15

Content Delivery Network (F5 Distributed Cloud)

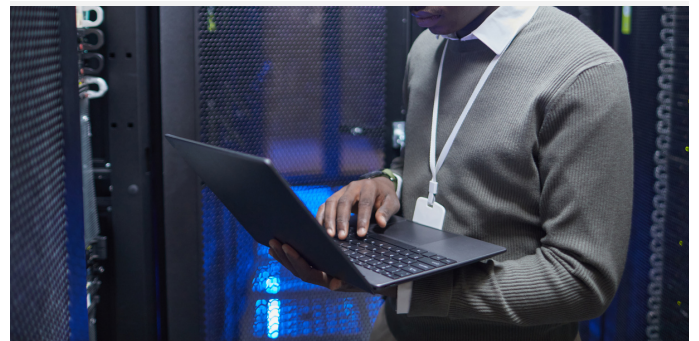

Content Delivery Network (F5 Distributed Cloud)

F5 Distributed Cloud CDN is a cloud-native platform developed by F5 Networks. It leverages a distributed network of servers located strategically across multiple geographic regions and is designed to deliver a comprehensive set of services for managing, securing, and optimizing applications across distributed and multi-cloud environments.

Benefits include

- Improved website performance
- Enhanced scalability Global reach and availability
- Advanced security features
- Cost efficiency Real-time analytics and insights
- Simplified management and integration

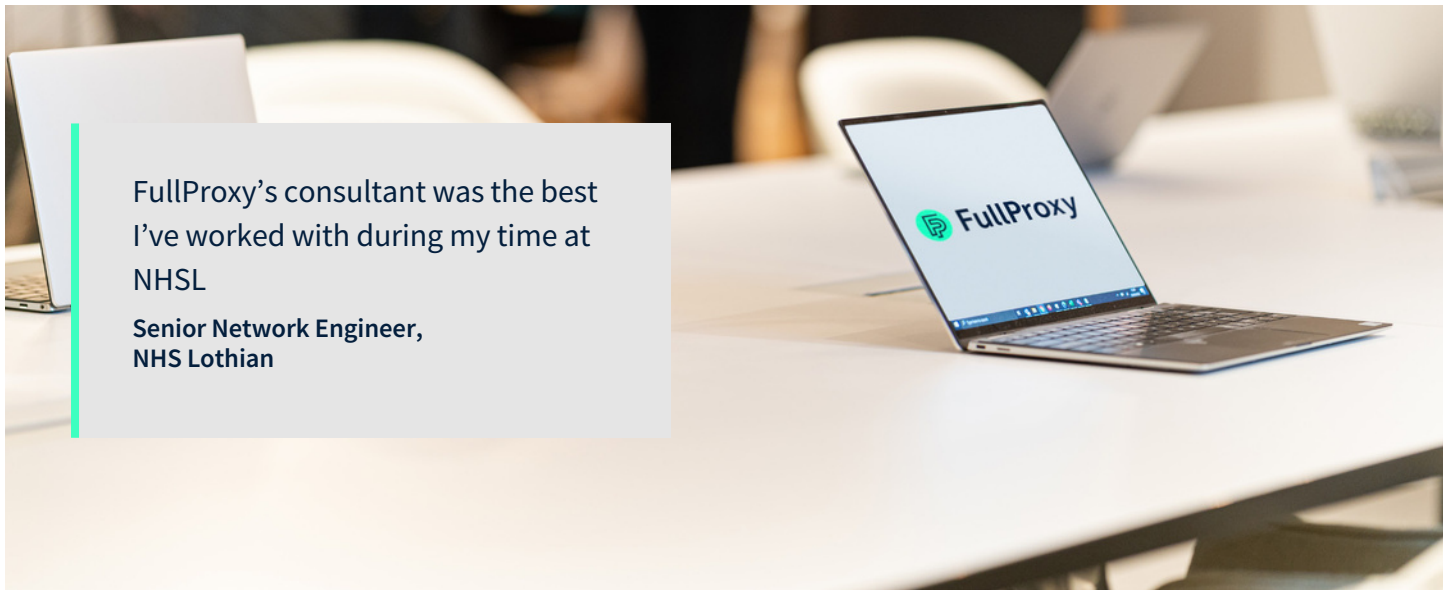

Content Delivery Network (F5 Distributed Cloud)

Leverage a distributed network of servers located strategically across multiple geographic regions and is designed to deliver a comprehensive set of services for managing, securing, and optimizing applications across distributed and multi-cloud environments

Service features

- Global network of Edge servers
- Content caching and optimisation
- Intelligent traffic routing
- Dynamic content acceleration

Your Cyber Security Specialists

FullProxy's consultant was the best I've worked with during my time at NHSL

Senior Network Engineer,
NHS Lothian

FullProxy are specialists in Cyber Security and Web Application consultancy. We optimise, install & manage premium cyber security solutions to minimise your security risk and maximise your return on investment.

Why work with FullProxy?

Our highly experienced consultants are Scotland's most certified F5 and Fortinet advisors, ensuring your implementation is seamless, your team is supported, and you achieve ROI from your implementation as soon as possible.

We also provide bespoke cyber security and web application strategy, with a curated portfolio of partner technologies to suit your needs.

FullProxy's size means we're agile and independent, so we can work alongside you to optimise the right solution for your organisation.

Our experience

Our extensive experience in delivering Public Sector projects means we have a deep understanding of your challenges and can therefore provide you with a better and more relevant service.

With a proven track record specifically in Healthcare, Education, Local Government, Financial Services and Critical Infrastructure we are trusted and recommended by people like you.
