Digital Services: Payments

Driving digital transformation with robust, fraud-resistant payment systems that reduce risk, enhance transparency, and improve citizen experience

CloudSource brings clarity and confidence to the public sector transformation

CloudSource is an award-winning GovTech business, trusted by UK & EU Central Government, Agencies, and Regulatory Organisations to deliver **Digital Transformation, Strategy, and Delivery Services**, bringing deep sector knowledge to modernise operating models and drive lasting results.

Working solely within the public sector, our domain knowledge of **Regulatory, Compliance and Transparency** business processes is our differentiator in the business and technology ecosystem.

We're a thought leader and Microsoft champion, enabling our clients to drive value through cutting-edge Microsoft cloud platforms, business applications, data, and AI that meet today's digital expectations of citizens.

For over a decade, we've been a results-driven SME partner, putting customer success at the heart of everything we do and consistently delivering results above and beyond.

What makes us different?

Agile and Flexible Delivery Model

Located in London, Edinburgh & Dublin

Service Description: Payments

Making secure online payments for the granting and revalidation of applications and the approval of licenses, registrations, and permits is essential when delivering a full end-to-end digital service.

Secure, Digital Payment Platform

Secure systems help reduce financial fraud and cybercrime, which cost the government billions annually.

Enhanced security measures protect public funds and reduce the burden on law enforcement and regulatory bodies.

Dynamics 365 moves the workflow on receipt of a payment or a direct Debit schedule, creates forward reminders for revalidations, and instigates exception handling when payments fail.

Power Pages Portal is seamlessly integrated with the Direct Debit and Card Payments provider.

End-to-End Digital Services Platform

Unify licensing, compliance, and enforcement into a single, modern, purpose-built solution. From registrations to investigations and beyond, accelerating every step, enabling disparate teams to protect the public and uphold integrity.

CloudSource's Digital Services Platform, built on Microsoft Dynamics 365 & Power Pages, is a tailored configuration designed for Public sector organisations looking to modernise their business operations. At its core, the solution centralises your register, accelerates registration and payments, and surfaces deep insights into registrants. Additional features deliver Enterprise-Scale Case Management, Inspections and Omnichannel Communications.

The full platform is delivered as a Software-as-a-Service (SaaS) solution, on a per-user, per-month licence subscription that can flex with your requirements.

Why Choose CloudSource Digital Services Platform

Public sector knowledge built in – Everything we have learned over 10 years of working with central government, departments, and regulatory bodies, distilled into our solution.

Local expertise & support – Proven UK & EU experience with onshore teams and localised domain knowledge.

Secure regional data hosting – Data is protected and compliant with sovereignty obligations.

Trusted by public sector organisations – in the UK & EU.

Upgrades included – the latest version through hassle-free updates included in your SaaS subscription.

Features:

Secure Payments Integration	Payment Profile Management
Compatible with most Payment Providers	Audit and Payment History
Card Payment	Fraud Protection
Direct Debit	Automated Notifications

Benefits:

Trusted & Secure Payment Platform	A Digital Citizen Experience
Real-time Data Analytics and Business Insights	Low-Code Solution
Intelligent and Automated Business Processes	Payment analytics
Systems Integration and Interoperability	Secure SaaS Platform

How we plan the service

CloudSource provides a flexible, collaborative approach to Project and Programme planning for the implementation of new services, from blue-sky thinking and business case authoring through mobilisation, delivery, and continuous improvement.

We have a dedicated project management office that specialises in delivering Digital, Data, and Technology (DDaT) and has experience at all stages of the programme lifecycle, including supporting service development from pre-alpha onwards. Our methodology follows a proven, GDS-aligned process. It delivers Agile Scrum with overarching waterfall governance.

Throughout delivery, we collaborate with customers and partners in sprints, using a one-team, one-goal approach and a continuous delivery principle to deliver demonstrable benefits as early as possible in all our work. Project plans and milestones are aligned with deliverables, and Highlight Reports (HLR) are delivered at a frequency to provide a clear view of Project progress and activity status, leading to a high degree of confidence in achieving milestones.

Recognition

CloudSource is proud to be recognised across multiple dimensions, from driving digital transformation to championing diversity and inclusion in tech. Our awards reflect the strength of our people, the impact of our solutions, and our commitment to building a smarter future. Whether it's delivering change or empowering underrepresented voices, we're honoured to be leading the way.

Impact

Social value is integral to our culture and purpose. We are committed to supporting local communities and delivering real impact through everything we do.

 **HumanWise** is our social value initiative, a reflection of two of our core values: Human and Wise. Together, they define how we give back to society and create sustainable impact.

CloudSource holds the **Social Value Quality Mark Bronze Award**, recognising our commitment to delivering meaningful impact through HumanWise.

This is to certify that

CloudSource

has been successfully awarded the Quality Mark

Terms and Conditions:

All services provided are governed by the G-Cloud 15 Framework Terms and Conditions. Additional Terms may apply, dependent upon the service being purchased; these may include:

- **Software as a Service (SaaS) & Cloud Storage Subscription**
All software license purchases and subscriptions are the client's responsibility.
- **Data Processing**
Data processing may be subject to an additional Data Protection Agreement.

Client Obligations:

For CloudSource to deliver our service to the highest possible standards, we may ask our clients to:

- **During the Onboarding Phase**
Make an agreement on the most suitable governance model to meet the requirements of the engagement.
- **Engage Business Stakeholders**
Communicate the expectations of project involvement to key business stakeholders.
- **Provide Access to Technology**
Line-of-business Applications, Technology Estate & Data.
