Microsoft Power Pages

Building secure, modern portals that transform citizen services and deliver world-class digital experiences for the public sector

CloudSource brings clarity and confidence to the public sector transformation

CloudSource is an award-winning GovTech business, trusted by UK & EU Central Government, Agencies, and Regulatory Organisations to deliver **Digital Transformation, Strategy, and Delivery Services**, bringing deep sector knowledge to modernise operating models and drive lasting results.

Working solely within the public sector, our domain knowledge of **Regulatory, Compliance and Transparency** business processes is our differentiator in the business and technology ecosystem.

We're a thought leader and Microsoft champion, enabling our clients to drive value through cutting-edge Microsoft cloud platforms, business applications, data, and AI that meet today's digital expectations of citizens.

For over a decade, we've been a results-driven SME partner, putting customer success at the heart of everything we do and consistently delivering results above and beyond.

What makes us different?

Service Description: Microsoft Power Pages

Power Pages is a game-changing technology for public sector organisations that are addressing the growing need to make their essential business services accessible to citizens through an online portal. The technology seamlessly integrates with public websites and internal CRM systems to deliver public services that meet today's digital expectations.

Rapid Development and Deployment

Bringing new services online for citizen consumption within a matter of weeks

Low-code and Pro-Dev Tools

Create a fully functional portal with point-and-click configuration and out-of-the-box style templates

Data Connectivity

Seamless integration with Dynamics 365 to streamline business processes

Security and Governance

Defend against common exploits using Web Application Firewall features

Integration with Case Management

Integration with Dynamics 365, case management that ensures complete documentation of user interactions

Deliver world-class digital public services

Secure, scalable AI-powered business websites and citizen portals that simplify access to public services. From service applications, registrations to complex Casework processes.

Power Pages helps government organisations deliver modern, citizen-first experiences with speed and confidence.

With next-generation AI, Copilot transforms how public sector organisations deliver citizen-facing portals with Power Pages. It streamlines tasks such as applications, registrations, and renewals through a simple, conversational interface,

Copilot also enhances citizen engagement by replacing static navigation with dynamic dialogue-driven interactions, making information and services more accessible.

Features:

Citizen Facing Portal	Model-driven Forms, Views/Lists/Charts/Dashboards
Self-Service Business Processes	Out-Of-Box AI-enhanced features
Low-Code Technology	Enterprise-grade Security and Governance
Seamless Integration with Dynamics 365	Pro-developer Extensibility
Customisation with Industry-based Templates	Configurable Security Model

Benefits:

Digitised Public Services	Application Processing
Rapid Deployment Model	Full Interoperability with other systems
Drive innovation by Prototyping and Evolving your ideas	Easy to Maintain and Support Apps created
Modernised Business Services	Secure Development
Process Acceleration from Business Data	Unified Data Management

How we plan the service

CloudSource provides a flexible, collaborative approach to Project and Programme planning for the implementation of new services, from blue-sky thinking and business case authoring through mobilisation, delivery, and continuous improvement.

We have a dedicated project management office that specialises in delivering Digital, Data, and Technology (DDaT) and has experience at all stages of the programme lifecycle, including supporting service development from pre-alpha onwards. Our methodology follows a proven, GDS-aligned process. It delivers Agile Scrum with overarching waterfall governance.

Throughout delivery, we collaborate with customers and partners in sprints, using a one-team, one-goal approach and a continuous delivery principle to deliver demonstrable benefits as early as possible in all our work. Project plans and milestones are aligned with deliverables, and Highlight Reports (HLR) are delivered at a frequency to provide a clear view of Project progress and activity status, leading to a high degree of confidence in achieving milestones.

Recognition

CloudSource is proud to be recognised across multiple dimensions, from driving digital transformation to championing diversity and inclusion in tech. Our awards reflect the strength of our people, the impact of our solutions, and our commitment to building a smarter future. Whether it's delivering change or empowering underrepresented voices, we're honoured to be leading the way.

Impact

Social value is integral to our culture and purpose. We are committed to supporting local communities and delivering real impact through everything we do.

 **HumanWise** is our social value initiative, a reflection of two of our core values: Human and Wise. Together, they define how we give back to society and create sustainable impact.

CloudSource holds the **Social Value Quality Mark Bronze Award**, recognising our commitment to delivering meaningful impact through HumanWise.

This is to certify that

CloudSource

has been successfully awarded the Quality Mark

Terms and Conditions:

All services provided are governed by the G-Cloud 15 Framework Terms and Conditions. Additional Terms may apply, dependent upon the service being purchased; these may include:

- **Software as a Service (SaaS) & Cloud Storage Subscription**
All software license purchases and subscriptions are the client's responsibility.
- **Data Processing**
Data processing may be subject to an additional Data Protection Agreement.

Client Obligations:

For CloudSource to deliver our service to the highest possible standards, we may ask our clients to:

- **During the Onboarding Phase**
Make an agreement on the most suitable governance model to meet the requirements of the engagement.
- **Engage Business Stakeholders**
Communicate the expectations of project involvement to key business stakeholders.
- **Provide Access to Technology**
Line-of-business Applications, Technology Estate & Data.
