Digital Transformation Assessment

A strategic evaluation to uncover digital opportunities, align technology with business goals, and build a roadmap for sustainable transformation

CloudSource brings clarity and confidence to the public sector transformation

CloudSource is an award-winning GovTech business, trusted by UK & EU Central Government, Agencies, and Regulatory Organisations to deliver **Digital Transformation, Strategy, and Delivery Services**, bringing deep sector knowledge to modernise operating models and drive lasting results.

Working solely within the public sector, our domain knowledge of **Regulatory, Compliance and Transparency** business processes is our differentiator in the business and technology ecosystem.

We're a thought leader and Microsoft champion, enabling our clients to drive value through cutting-edge Microsoft cloud platforms, business applications, data, and AI that meet today's digital expectations of citizens.

For over a decade, we've been a results-driven SME partner, putting customer success at the heart of everything we do and consistently delivering results above and beyond.

What makes us different?

Service Description: Digital Transformation Assessment Programme

The CloudSource Digital Transformation Assessment framework is designed specifically for central government departments, agencies, and regulatory bodies to prepare for and embrace digital change.

Our four key stages of **Inspire**, **Design**, and **Empower** will provide you with a vision, structure, and a roadmap to **Achieve** digital public services.

Everything starts with an I.D.E.A

INSPIRE

Imagine a Future Organisation

Take the initial steps by identifying the operational hotspots and surfacing the business value through envisioning workshops with your organisation's senior stakeholders.

DESIGN

Prove the Art of Possible

Bring your goals to life through prototyping new ways of working, showcasing the future state organisational flows and building a compelling case for change.

EMPOWER

Gain Authentic Buy-In

Set out the digital journey roadmap and implement programme governance through immersive experiences and key stakeholder buy-in.

ACHIEVE

Deploy the Digital Platform

Achieve a future state digital organisation through executing the business change, strategy implementation, and business transformation across departments.

At every stage, our consultants will work closely with public sector entities and contribute innovative technologies that will shape your future-proofed digital organisation.

Working closely with your key business stakeholders, we define and identify challenges, providing you with clearly defined strategic goals, evidence of value, expert solutions, and a roadmap outlining how these objectives will be achieved.

Alternative Assessment Programmes we offer

Regulatory Transformation Assessment

To meet today’s digital expectations, regulatory bodies must harness the full power of technology, not just to streamline processes but to reimagine regulation as a driver of progress and public trust.

As this landscape evolves, we designed our Regulatory Transformation Assessment to empower regulatory bodies with expert advisory services and tailored digital solutions, leveraging our technological leadership to build a future-ready organisation.

AI Ignite Programme

While the use of AI in government is relatively new, emerging trends in Agentic AI use within public services indicate a promising future.

After over a decade of working with public sector organisations, we’ve seen a recurring theme. The technology is out there, ready, but the path forward is often unclear. Many public sector teams are unsure where to begin, how to roll it out, or how to build a compelling case for change. Our AI Ignite Programme is a strategic, hands-on experience built to help organisations confidently kickstart their AI journey.

Contact us to learn more or discuss how we can customise these programmes to meet your organisation’s needs.

Features:

Transformation Hotspot Identification	Design Thinking Workshops
Demonstrable Solution Prototype	Technical Analysis
Transformation Roadmap	Business Process Analysis
Programme Mobilisation	Data Analysis

Benefits:

Expert Advice and Guidance	Identified Programme Team
Identified Starting Point of the Digital Transformation Journey	Programme Stakeholder Mobilisation
Design New Digital Services	Future-Proofed Business Services
Accurate Technology Implementation Cost	A Proven and Trusted Programme

How we plan the service

CloudSource offers a flexible, collaborative approach to project and programme planning for implementing new services, from conceptualisation to authoring business cases, through a series of workshops and assessments.

We have a dedicated project management office that specialises in delivering Digital, Data, and Technology (DDaT) and has experience at all stages of the Catalyst programme journey. Our methodology is a GDS-aligned process. It delivers Agile Scrum with an overarching waterfall governance framework.

Throughout the delivery process, we collaborate with customers and partners through workshops, adopting a one-team, one-goal approach and a continuous delivery principle to provide demonstrable benefits as early as possible in all our work. Project plans and milestones are aligned with deliverables, and Highlight Reports (HLR) are delivered at a frequency to provide a clear view of Project progress and activity status, leading to a high degree of confidence in achieving milestones.

Professional Services Portfolio

CloudSource professional services include, but are not limited to:

Advisory

Transformation Advisory

Establish your vision, strategic goals, and future business models.

Recognition

CloudSource is proud to be recognised across multiple dimensions, from driving digital transformation to championing diversity and inclusion in tech. Our awards reflect the strength of our people, the impact of our solutions, and our commitment to building a smarter future. Whether it's delivering change or empowering underrepresented voices, we're honoured to be leading the way.

Impact

Social value is integral to our culture and purpose. We are committed to supporting local communities and delivering real impact through everything we do.

 **HumanWise** is our social value initiative, a reflection of two of our core values: Human and Wise. Together, they define how we give back to society and create sustainable impact.

CloudSource holds the **Social Value Quality Mark Bronze Award**, recognising our commitment to delivering meaningful impact through HumanWise.

This is to certify that

CloudSource

has been successfully awarded the Quality Mark

Terms and Conditions:

All services provided are governed by the G-Cloud 15 Framework Terms and Conditions. Additional Terms may apply, dependent upon the service being purchased; these may include:

- **Software as a Service (SaaS) & Cloud Storage Subscription**
All software license purchases and subscriptions are the client's responsibility.
- **Data Processing**
Data processing may be subject to an additional Data Protection Agreement.

Client Obligations:

For CloudSource to deliver our service to the highest possible standards, we may ask our clients to:

- **During the Onboarding Phase**
Make an agreement on the most suitable governance model to meet the requirements of the engagement.
- **Engage Business Stakeholders**
Communicate the expectations of project involvement to key business stakeholders.
- **Provide Access to Technology**
Line-of-business Applications, Technology Estate & Data.
