AI Adoption Assessment

A strategic workshop to explore AI opportunities and build a robust roadmap for ethical, impactful adoption

CloudSource brings clarity and confidence to the public sector transformation

CloudSource is an award-winning GovTech business, trusted by UK & EU Central Government, Agencies, and Regulatory Organisations to deliver **Digital Transformation, Strategy, and Delivery Services**, bringing deep sector knowledge to modernise operating models and drive lasting results.

Working solely within the public sector, our domain knowledge of **Regulatory, Compliance and Transparency** business processes is our differentiator in the business and technology ecosystem.

We're a thought leader and Microsoft champion, enabling our clients to drive value through cutting-edge Microsoft cloud platforms, business applications, data, and AI that meet today's digital expectations of citizens.

For over a decade, we've been a results-driven SME partner, putting customer success at the heart of everything we do and consistently delivering results above and beyond.

What makes us different?

Service Description: AI Adoption Assessment Programme

The CloudSource AI Adoption Assessment framework is designed specifically for central government departments, agencies, and regulatory bodies to confidently kickstart their AI transformation journey.

Our four key stages of **Inspire**, **Design**, and **Empower** will provide you with a vision, structure, and a roadmap to **Achieve** digital public services.

Everything starts with an I.D.E.A

INSPIRE

Imagine a Future Organisation

Explore and understand the capability and power of AI. Identify use cases where leveraging AI can innovate and future-proof business processes.

DESIGN

Prove the Art of Possible

Assess and validate organisational AI readiness and understand the impact of AI adoption. Address risks and build confidence through a robust governance strategy.

EMPOWER

Gain Authentic Buy-In

Demonstrate AI value, build trust and gain stakeholder buy-in through the development of a representational solution prototype.

ACHIEVE

Deploy the Digital Platform

Achieve AI aptitude, mobilise the innovation roadmap to super-charge business operations, and accelerate essential business services.

At every stage, our consultants will work closely with public sector entities and contribute emerging technologies, such as Agentic AI, to shape your future-proofed digital organisation.

Working closely with your key business stakeholders, we define and identify challenges, providing you with clearly defined strategic goals, evidence of value, expert solutions, and a roadmap outlining how these objectives will be achieved.

Alternative Assessment Programmes we offer

Regulatory Transformation Assessment

To meet today’s digital expectations, regulatory bodies must harness the full power of technology, not just to streamline processes but to reimagine regulation as a driver of progress and public trust.

As this landscape evolves, we designed our Regulatory Transformation Assessment to empower regulatory bodies with expert advisory services and tailored digital solutions, leveraging our technological leadership to build a future-ready organisation.

Digital Transformation Assessment

Digital Transformation has now become an essential priority across the public sector, enabling it to keep pace with the constantly evolving digital world and deliver exceptional citizen services. At CloudSource, we identify the challenges and opportunities to build digital citizen services that meet citizens' digital expectations.

Our Digital Transformation Assessment Programme helps organisations reimagine their operations, uncover high-impact opportunities, and build a clear roadmap for change. Through collaborative workshops, prototyping, and stakeholder engagement, we guide you from vision to execution, ensuring your digital journey is aligned, future-proofed, and ready to deliver real value.

Features:

AI Transformation Hotspot Identification	Design Thinking Workshops
Demonstrable Solution Prototype	Validate Business Readiness
AI Transformation Roadmap	Business Process and Technical Analysis
Programme Mobilisation	Data Analysis

Benefits:

Expert Advice and Guidance	Identified Programme Team
Identified Starting Point of the Digital Transformation Journey	Programme Stakeholder Mobilisation
Design New AI-Powered Services	Future-Proofed Business Services
Accurate Technology Implementation Cost	A Proven and Trusted Programme

How we plan the service

CloudSource offers a flexible, collaborative approach to project and programme planning for implementing new services, from conceptualisation to authoring business cases, through a series of workshops and assessments.

We have a dedicated project management office that specialises in delivering Digital, Data, and Technology (DDaT) and has experience at all stages of the Catalyst programme journey. Our methodology is a GDS-aligned process. It delivers Agile Scrum with an overarching waterfall governance framework.

Throughout the delivery process, we collaborate with customers and partners through workshops, adopting a one-team, one-goal approach and a continuous delivery principle to provide demonstrable benefits as early as possible in all our work. Project plans and milestones are aligned with deliverables, and Highlight Reports (HLR) are delivered at a frequency to provide a clear view of Project progress and activity status, leading to a high degree of confidence in achieving milestones.

Professional Services Portfolio

CloudSource professional services include, but are not limited to:

Advisory

Transformation Advisory

Establish your vision, strategic goals, and future business models.

Delivery

Systems Architecture

Design “to be” technical architecture required by your future organisation.

Recognition

CloudSource is proud to be recognised across multiple dimensions, from driving digital transformation to championing diversity and inclusion in tech. Our awards reflect the strength of our people, the impact of our solutions, and our commitment to building a smarter future. Whether it's delivering change or empowering underrepresented voices, we're honoured to be leading the way.

Impact

Social value is integral to our culture and purpose. We are committed to supporting local communities and delivering real impact through everything we do.

 **HumanWise** is our social value initiative, a reflection of two of our core values: Human and Wise. Together, they define how we give back to society and create sustainable impact.

CloudSource holds the **Social Value Quality Mark Bronze Award**, recognising our commitment to delivering meaningful impact through HumanWise.

This is to certify that

CloudSource

has been successfully awarded the Quality Mark

Terms and Conditions:

All services provided are governed by the G-Cloud 15 Framework Terms and Conditions. Additional Terms may apply, dependent upon the service being purchased; these may include:

- **Software as a Service (SaaS) & Cloud Storage Subscription**
All software license purchases and subscriptions are the client's responsibility.
- **Data Processing**
Data processing may be subject to an additional Data Protection Agreement.

Client Obligations:

For CloudSource to deliver our service to the highest possible standards, we may ask our clients to:

- **During the Onboarding Phase**
Make an agreement on the most suitable governance model to meet the requirements of the engagement.
- **Engage Business Stakeholders**
Communicate the expectations of project involvement to key business stakeholders.
- **Provide Access to Technology**
Line-of-business Applications, Technology Estate & Data.
