Pricing Approach

Oviva Programmes across Obesity, Diabetes and Population Health are developed with a focus on delivering lasting patient outcomes at a cost that delivers greatest value for the NHS.

We agree bespoke pricing for every programme based on pathway requirements, volumes and target population. We look to make our programmes as accessible as possible by developing models that reduce costs and provide financial protection for the NHS.

The standard upfront costs for our programmes vary depending on the programme length and intensity of healthcare professional support required.

Oviva Programme	Price per Participant	Oviva Standard Service consisting of:
Tier 2 Weight Management	£150.00	12 Week phone and digitally enabled service with 1:1 coaching from Oviva's specialist coaching team
Tier 3 Weight Management (Up to 24 Month programme)	£2,150.00	Up to 24-month weight loss and behaviour change digital programme for complex obesity, including medication support*, delivering diet and lifestyle support via our specialist coaching and clinical teams *Medication Pathway is 24 months. Medication costs, including supply, dispense and delivery, not included in this price
Diabetes Prevent	£220.00	9-month weight loss and behaviour change digital programme
Diabetes Support	£175.00	12-week education and behaviour change digital programme
Diabetes Remission	£1,666.00	12-month Type 2 Diabetes Remission (Low Calorie Diet) and behaviour change digital programme

Please note that these are our maximum prices per programme and pathway. We are open to discussion on the programme structure and price.
