1 Service Description

A specialist Azure cost optimisation service analysing Azure cloud deployments to identify inefficiencies, reduce waste, and optimise ongoing cloud spend. Enables NHS and public-sector organisations to improve cost transparency, implement FinOps practices, and achieve sustainable Azure consumption.

2 About Our Service

This service provides expert analysis of Azure environments to optimise cloud cost efficiency without compromising performance or security. It delivers actionable recommendations, FinOps-aligned practices, and governance improvements to help organisations understand, control, and optimise Azure spending.

3 Service Features

- Azure cost and usage analysis
- Identification of underutilised Azure resources
- Azure pricing and SKU optimisation
- Reserved Instance and Savings Plan analysis
- Storage and data tiering optimisation
- Azure SQL and compute cost optimisation
- Cost allocation and tagging strategy
- FinOps maturity assessment and roadmap
- Governance and cost control recommendations
- Cost optimisation reporting and dashboards

4 Service Benefits

- Reduced Azure cloud operating costs
- Improved visibility of Azure spending
- Eliminates waste and unused resources
- Better alignment of cost to value
- Supports sustainable cloud consumption
- Improves forecasting and budget control
- Enables informed cloud investment decisions
- Strengthens governance and accountability
- Complements existing Azure operations
- Confidence in Azure cost management
